

L. A. RAILROAD TIEUP BROKEN

TRIP AGAIN TO FIGURE IN ACTION ON PACT

Believe Appeal to People Is Needed to Get Peace Treaty Ratified

WHITE HOUSE MEETING DOESN'T WIN ENEMIES

President to Use His High Price Argument to Get Favorable Vote

WASHINGTON, Aug. 22.—President Wilson's proposed tour of the country was again coming to the front in treaty discussions today, as a result of developments since Tuesday, when the president met the senate foreign relations committee.

Reports coming mostly from the capitol that the president's trip had been abandoned are denied at the White House, although it is admitted that plans are still indefinite.

Developments have not been such as to encourage the belief that the President would be able to get the treaty and league covenant ratified without an appeal direct to the people. It is pointed out by the President's supporters. Some of the developments cited are:

Attitude Not Changed.

The White House conference so far apparently has changed no senator's attitude toward the treaty, although administration supporters are still confident that results will be to the treaty's benefit.

The Pittman resolution, embodying reservations to be adopted separate from the ratification act, which the President has indicated is as far as he is at present willing to go toward a compromise, has been pigeon-holed.

The Senate Foreign Relations committee has decided to go ahead with hearings that will delay the treaty, despite the declaration by the President that the country cannot get back to normal before the pact is ratified.

This argument—that normal conditions and lower prices await peace—is regarded as the one the President is most likely to stress, if he goes on the proposed tour.

Wilson Testimony Renews Britain's League Interest

LONDON, Aug. 22.—Revived interest in the League of Nations and in the proceedings at the peace conference has resulted here from President Wilson's testimony before the Senate Foreign Relations committee.

The Allies' concealment of secret treaties strengthened Wilson's moral position, says the Manchester Guardian, which wonders why the President did not use his position more fully. The paper supposes he was forced to make a difficult choice between the acceptance of some very unfavorable point or the possible breaking up of the peace conference. It hopes the price of all these concessions, paid in return for the League of Nations, will not be lost.

The Daily Graphic, commenting on Wilson's conference with the senators, declares there is one aspect with regard to the difficulty over article ten which should weigh heavily on America. Had it not been for the endurance and sacrifices of the Allies, the editorial declares, the Monroe Doctrine would not be much today "beside a sweet memory controlled by Germany."

"That being the case," the paper asks, "why shouldn't America make some sacrifice in return for the Allies' services?"

Pact May Be Taken From Foreign Relations Body

Wilson U. S. Tour Not Abandoned Rail Walkout Hits Santa Ana

Archduke Joseph, Government Head In Hungary Quits

ARCHDUKE JOSEPH FERDINAND
Successor to Julius Peide Leaves Budapest Is Vienna Report

VIENNA, Aug. 22.—A state of siege was proclaimed throughout Hungary today, it was learned in dispatches from Budapest.

PARIS, Aug. 22.—Archduke Joseph has resigned as head of the Hungarian government and has left Budapest, a Vienna dispatch to the Agence Radio reported today.

Archduke Joseph surprised the world when he regained power for a Hapsburg in Hungary at the time the Rumanian troops occupied Budapest. His ascent to control of the government followed the brief administration of Premier Julius Peide, who formed a socialist cabinet after Bela Kun had been overthrown.

"Joseph's government has been held unrepresentative of the country and has been charged with reactionary intentions, even the restoration of the monarchy. Foreign Minister Lovassy, however, in an interview with the United Press published yesterday, declared Joseph would resign in a month, as soon as the national assembly was established.

Joseph never received recognition from the Allies, although it was reported that Entente representatives in Budapest had established an understanding with him.

Allies Notify Archduke They Won't Recognize Him

PARIS, Aug. 22.—After Herbert Hoover's protest against Archduke Joseph, in which he urged the Allies to oust Joseph as head of the Hungarian government and permit the establishment of a popular government, the council of five notified the archduke that the Allies would not treat with a member of the Hapsburg dynasty. They declared also that they would not recognize his government, it became known today.

MATLACK HOT ON TRAIL OF MEXICAN BANDIT

Rentario, Leader of Gang May Be Encountered By Force Today

FOUR ARE KILLED IN BATTLE AT FORTRESS

Three of Four Make Escape But Cavalry Renews Chase at Dawn

SAN ANTONIO, Tex., Aug. 22.—Captain Leonard Matlack, pursuing Mexican bandits, hoped to encounter Rentario, the leader, some time today, according to reports to Southern department headquarters here.

The eighth cavalry renewed the chase with the dawn today. Five bandits have been accounted for. Four were killed yesterday when troopers came upon a group of Rentarians in an adobe fortress.

As a cavalry appeared rifles blazed from port holes. The soldiers rushed at once, taking the position without injury to a man. Three or four bandits were known to have fled on the approach of the Americans. No trace of them was found.

Three of the Mexican dead were identified as Jesus and Francisco Janir and Jose Fuentes. The fourth was unknown.

Organized Hunt For Two Lost Aviators Is Begun

SAN DIEGO, Cal., Aug. 22.—Organized search for Lieutenant Frederick Waterhouse, Weiser, Idaho, and Lieutenant C. N. Connelly of San Diego, army flyers connected with Rockwell Field, was under way today. The men have been missing since Wednesday noon when they left the hangar on the regular airplane patrol of the border. It is thought they were forced to land in some out-of-the-way spot, probably below the international line in Lower California, which is largely desert and bad lands.

Fifteen brother flyers were in the search yesterday, but were unable to find a trace of the airmen. They left North Island early Tuesday morning and ran into a heavy rain storm in the mountains which damaged their plane slightly, but they were able to reach the patrol base at Yuma, Ariz. After repairing their machine they again took the air, but have not been seen since.

Wilson and Lansing Talk Over Answer to Carranza

WASHINGTON, Aug. 22.—President Wilson and Secretary Lansing conferred for more than an hour at the White House today. It was intimated that they had under consideration the reply to the protest of the Mexican government and the request that troops of the Eighth Cavalry sent across the Mexican border in pursuit of bandits be withdrawn immediately. Lansing was expected to forward the reply to the Mexican government today.

The State Department will explain the necessity for sending an expedition after the bandits whom this country believes can be captured by the troops on the scene.

Mexican press dispatches received in Washington today indicate that the general public is not alarmed over the present situation. Most of the trouble

(Continued on page two.)

ALL PACKING HOUSES ARE FORCED TO BE IDLE

Orange and Lemon Picking Is at Standstill and Many Are Out of Work

STRIKE CONTINUATION WILL AFFECT PLANTS

Fruit and Sugar Enroute Here Held Up Somewhere Along the Road

THE closing down of all citrus packing houses in Orange county, about twenty houses in all, the stopping of all orange and lemon picking, the non-arrival of incoming freight shipments and slow passenger service were some of the local results today of the sympathetic rail strike in Los Angeles.

Hundreds of people are temporarily thrown out of work by the closing of fruit houses and hundreds more would be affected should the rail tie-up continue for any length of time.

Many Orange county industries are dependent in a great measure upon rail transportation and these would be affected more and more as the strike of rail workers, in sympathy with the P. E. strikers, continues.

All passenger trains were running today, but nearly all were late, according to word given out at the Santa Fe station at noon today, the only regular train which failed to run on schedule being the "Owl" which should have gone through to San Diego early this morning but did not. The south-bound passenger due here at 10:10 did not arrive until nearly noon, bringing the mail, but the northbound at 11:35 was on time.

Freight Service Given.

None of the local railroad employees have taken part in the sympathetic strike, according to F. T. Smith, local agent, and purely local freight service is being given as usual, with Santa Fe trains as far north as Fullerton, and Southern Pacific around the Huntington Beach-Westminster-Los Alamitos loop. The Huntington Beach, Anaheim and Los Alamitos sugar factories, it is said, are being supplied with beets and their runs will not be interfered with.

Pacific Electric service today was unchanged—no service to Orange and cars only every two hours or so to Los Angeles.

Citrus Men Facing Loss

The citrus growers would be hard hit by a rail tie-up continuing even a week or two weeks, especially if the entire United States systems were affected. There is considerable fruit already packed and on the way to market, and loss would be occasioned if these shipments were long delayed, in addition to the loss of fruit not yet shipped. It is better for the fruit to remain loose in boxes a short time, so packing by the various associations of this district was discontinued this morning at the first news of the steam-road strike, and likewise all picking was stopped, for the fruit is better on the trees than in boxes. The fruit will be kept in the packing houses a day or two, pending further developments, and should the freight strike continue, it will be packed and stored in the big pre-cooling plant at Orange. Orange County Fruit Exchange officials refused today to estimate the number of employees thrown out of work by the shut-down of picking and packing operations.

Industrial Plants Affected.

Several Santa Ana industrial plants would be affected should the strike continue a month or longer. The California Packing Corporation luckily

American Food Commission Doing Great Work In Poland

Typical destitute Polish boy being fed bread and milk. He was later given warm clothing.

Food and Clothing Being Given to Starving and Destitute Throngs

WARSAW, Aug. 22.—Thousands of people in Poland are utterly destitute as a result of the war and the scarcity of food and employment. The crops have been small and prices are such that the poor cannot afford to buy food fit to eat. Thousands have died of starvation and other ills that result from poor nourishment.

A great work is being done in Poland now by the American Food Commission, which is making every effort to alleviate the pitiable conditions. The first thought of the commission is to provide food for the starving and hungry, and the next is to provide them with clothes and suitable shelter. The work is most difficult, but is going along fairly well at present.

HUNS MASSACRE IN SILESIA IS REPORTED

BY CARL D. GROAT
(United Press Staff Correspondent)

BERLIN, Aug. 22.—Declaring that Germany had resorted to massacre in Upper Silesia in order to establish her power before the plebiscite was held, the Polish secretary of war, Yorfanti, pleaded today that the Allies send a commission to organize the country and preserve order.

"The Germans are killing peaceful citizens in Upper Silesia," Yorfanti asserted. "Travelers from that district told me that sixteen persons were executed at Gleiwitz in one day without a trial. The impression is that the Germans are trying to shoot prominent Poles so as to disorganize the country and have an excuse to massacre the population, thus improving Germany's chances in the plebiscite."

Yorfanti declared that Boersing, German commander in Upper Silesia, was well aware that Minister of War Noske was responsible for introducing martial law against the Poles in order to aid the German movement for a favorable plebiscite.

SHOE DEALERS DENY PROFITEERING CHARGE

ATLANTIC CITY, N. J., Aug. 22.—Shoe retailers at the convention of the National Shoe Retailers' Association, in session here today, denied profiteering charges. Five thousand shoe retailers were represented.

Officers of the association denied that shoes would cost \$25 a pair this winter. They announced that "just plain kicks" would be offered to the public at prices ranging from \$8 to \$12 a pair.

2 CROWDED TRAINS GO TO NORTH TODAY

City Severed From Steam Road Connection For Fourteen Hours

STRIKE JUST LOCAL DECLARE OFFICIALS

P. E. Employees Committee Says National Body Did Not Order Walkout

LOS ANGELES, Aug. 22.—The Los Angeles Railway officials have refused to arbitrate the strike with the carmen, according to a statement issued this afternoon by Mayor Snyder's mediation board.

LOS ANGELES, Aug. 22.—Three separate strikes of railway switchmen of the Southern Pacific, Santa Fe and Salt Lake steam lines last night resulted in the complete severance of Los Angeles from steam railroad connection with the rest of the nation for several hours. Care are lined on the tracks this morning and being switched by officials of the railroads.

The first train to leave this city in 14 hours departed at 7 o'clock this morning for Fresno. At 8 o'clock a crowded passenger train pulled out of the Southern Pacific station for San Francisco.

An order was found at one of the yards last night calling for a general strike of Brotherhood of Railway Trainmen on all interurban and steam lines throughout the United States, by a company official. M. E. Montgomery, second vice-president of the Brotherhood, denied any knowledge of the supposed general strike order.

Switchmen Discharged

The strike grew out of the present Pacific Electric interurban strike, when several switchmen were discharged for refusing to handle P. E. freight trains. The switchmen's strike followed a demand for their re-instatement. Company officials claim they were not given time to act upon the matter.

Hundreds of disappointed travelers crowded the Southern Pacific depot here last night. All were refunded money on tickets purchased. Although railroad officials hold out hope for a quick recovery, they will not guarantee that service will be restored today.

The Owl, which left this city at 5 o'clock, was reported tied up along the line to San Francisco.

Engineers and firemen refused to handle the switching as such action would be contrary to their brotherhood agreement. The work is out of their province, they said.

National Brotherhood officials have nothing to do with calling the strike, according to members of the Pacific Electric employees' committee in session at the Baltimore Hotel today. An official statement is expected on adjournment of the committee.

Women Ask Protection For Men Who Refused to Quit

LOS ANGELES, Aug. 22.—A delegation of 300 women, wives and daughters of the Los Angeles Railway platform men now working gathered today at the office of Mayor M. P. Snyder to present a petition urging that the heads of their families be protected while remaining on the job. It was claimed that police are not protecting employees of the L. A. Railway who refused to walk out in the present strike.

Intimating a possible "reign of terror" orders were issued late last night by Police Chief George K. Bone, urging patrolmen and other police officers to augmented action on suppressing demonstrations and riots.

The orders followed several nights of petty rioting at car barns here

PACKING HOUSES U. S. ARMY FORCE L. A. RAIL TIEUP HOTEL SITE TO BE CLEARED IN THIRTY DAYS

CLOSED UP BY RAIL STRIKE
Orange and Lemon Pickers Forced to Be Idle; Fruit Held Up

(Continued from page one)

has a large supply of cans and its product is grown locally and brought to the plant by truck so the big cannery can operate a month or so without any great hindrance. Taylor's cannery has a car of San Joaquin Valley fruit now tied up in Los Angeles, and this will spoil if delayed there too long. Taylor's has four auto trucks busy hauling fruit and can keep itself supplied with fruit from points even as far away as the San Fernando and Perris valleys. A car of cane sugar is also en route from San Francisco, and should this be delayed very long the cannery will have to use local-grown beet sugar for canning.

Guggenheim's and the C. C. Collins plants are dealing in non-perishables, and would probably not be greatly affected by a tie-up. The Smart & Final Wholesale Grocery is well supplied at the present time with staples and can keep itself fully up to normal through truck transportation as long as the Los Angeles supplies hold out, but a several week's strike would no doubt serve to cut off needed supplies of foodstuffs.

The Fresno post of the American Legion has arranged to buy surplus army food from the government and resell to members' families at cost.

"BAYER CROSS" ON GENUINE ASPIRIN

boxes of 12 tablets cost but a few cents at drug stores—larger packages also. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacid. "Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken Bayer package which contains proper directions to safely relieve Headache, Toothache, Earache, Neuralgia, Colds and pain. Handy tin duster of Salicylicacid.—Adv.

HOT ON TRAIL OF BANDITS

New Start Is Taken at Day-break; Every House Is Searched

(Continued from page one)

between Mexico and the United States is attributed to articles 27 and 123 of the new Mexican constitution, which are claimed by foreign capitalists to be confiscatory. They deal with concessions in Mexico—principally oil. The War Department today was informed that army airplanes and border patrol cavalry are seeking the two aviators, Second Lieutenant Waterhouse and Pilot Connolly, who disappeared Wednesday near the Southern California border. The course of the aviators is practically parallel to the Mexican border. It is feared that they have landed in Mexico and were captured by bandits, as were the two army aviators recently freed.

MARFA, Tex., Aug. 22.—With four Mexican outlaws killed by American troops in Mexico, the United States cavalrymen resumed their saddles early today to finish their clean-up of the bad lands south of the Big Bend.

Captain Leonard Matlack, who arrived by airplane, was to return to his men today by the same air route. His explanation that he galloped off with Lieutenant Paul Davis without paying the balance of the \$15,000 ransom because the Mexican kidnapers treacherously plotted to kill him, was accepted by Major General J. T. Dickman, commander of the southern department.

Every house in the path of the Americans' advance is being searched and other possible hiding places of bandits are being sought out by the United States troops. Provisions bought in Mexican hamlets or at ranches are being paid for with American currency. Besides carrying orders to the cavalrymen in the field, airplanes carried funds to the commanders of the American columns. Despite absence of suitable landing places and danger from Mexican snipers, the American aviators are keeping up communication and liaison with the pursuing forces. Both air and mounted forces have so far suffered no casualties, although undergoing severe hardships.

Carranzista troops encountered on the pursuit have offered no opposition to the Americans. Captain Matlack declared that the Carranza commander when the bandit hunting mission of the Americans was explained to him, said "go ahead" to Matlack.

BROKEN AFTER 14 HOURS

Two Passenger Trains Get Away; Switchmen's Strike Is Only Local

(Continued from page one)

between strikers and strike breakers. Police officers were placed on twelve-hour shifts.

Irwin R. Day, a Southern Pacific switchman, shot last night while en route home, has a fair chance of recovery, hospital attendants say today.

Day was shot late last night while passing the Pacific Electric yards in an automobile. Mayer Snuckler, a special deputy, was arrested and charged with the shooting. Twenty officers dispersed a crowd of 500 jeering strikers and sympathizers at one barn of the Los Angeles Railway line last night. At another barn 1200 were dispersed.

Further negotiations between strikers and company will be held today by the mayor's mediation committee.

WILSON'S U. S. TRIP IS NOT ABANDONED

(Continued from page one.)

still further by granting a hearing to Greek, Irish and Egyptian and mid-European representatives, threatened today to renew the agitation for taking the treaty out of the committee's hands.

A majority of the committee took the position that the subject peoples who did not get satisfaction at Paris should be allowed to air their grievances.

Senator Hitchcock, administration leader, was preparing today to deliver his speech against textual amendments, but may not be able to get the floor.

The foreign relations committee today is to go further into the Shantung matter by hearing Dr. Williams of the University of California, an Oriental expert who was with the American peace mission in Paris.

RELIEF TRAINS ATTACKED
WASHINGTON, Aug. 22.—Repeated attacks by Austrian revolutionaries upon an American Red Cross relief supply train traveling from Paris to Bucharest were reported to Red Cross headquarters here today.

PERMIT ISSUED FOR RAZING 'OLD BAILEY' HOUSE, ERECTED NEARLY FIFTY YEARS AGO

The "Old Bailey" house at 608 North Broadway, opposite the court house, erected nearly fifty years ago and the most palatial house in Santa Ana for many years, is to be razed at once to make way for the new tourist hotel, upon which it is expected construction will start within a few weeks.

Building Inspector Ash issued a permit today for wrecking the old residence, which was sold to Dr. E. H. Waters of 2902 North Broadway, his bid being the highest of those submitted for the building. Dr. Waters will tear the house down at once and hand the material to Anaheim where it will be used in the construction of a home for his son.

The doomed structure was erected by the late Mrs. Andrews, mother of Clarence Meacham of 119 West Nineteenth street. Originally it was located on a ten-acre tract, but most of this holding was later subdivided and sold. For several years the structure was used as a high class boarding house. City Recorder Heathman occupied a room there in 1876, forty-three years ago, but couldn't remember today the exact year in which the house was erected.

MOONEY PROTEST OFF UNTIL OCTOBER 8TH

SAN FRANCISCO, Aug. 22.—The second demonstration for Thomas Mooney, originally set for Labor Day, has been postponed to October 8, the International Defense League announced today. The demonstration will also demand withdrawal of American troops from Siberia, recognition of the Russian soviet republic and amnesty for imprisoned soldiers, sailors and conscientious objectors and war time political prisoners, the league announced.

POTATOES ARE SEIZED IN RAID AT SEATTLE

SEATTLE, Wash., Aug. 22.—More than 312,000 pounds of potatoes seized by federal authorities in a raid on the port commission warehouse, are being inspected today with a possibility that this food may be placed on sale. The potatoes were placed in storage between November, 1918, and June, 1919.

FINAL TRIAL SPINS FOR BIG ROAD RACE

ELGIN, Ill., Aug. 22.—Final trial spins on the eight and one-half mile course were scheduled by drivers today in preparation for tomorrow's 301-mile road race.

Kurt Hiltke still held the trial record of 6:17 for the stretch, or two seconds slower than the 1915 record.

ORPHANAGE IN ALASKA

CHOGGIUNG, Alaska, Aug. 22.—The United States government will erect an orphanage at Choggiung, where there are said to be 200 children whose parents were victims of the late influenza epidemic.

LOS ANGELES AIRMEN ARE SLIGHTLY HURT

SANTA BARBARA, Aug. 22.—Pilot Wilbur Bradley and Mechanic F. M. Grabiak, both of Los Angeles, at 3 o'clock yesterday afternoon fell more than 100 feet in their big Curtiss plane while chrelling above the race track to gain altitude for their flight back to Los Angeles.

Slight cuts and bruises were their only injuries. The men were so encased in the wreckage of their machine that they had to cut out of the tangle of wood, wire and canvas. According to the pilot, the machine side-slipped while banking, and they were not far enough above ground to right themselves.

WAS IN BED THREE MONTHS ON A STRETCH

Contractor Curtis Works Every Day Now Since Taking Tanlac. Rheumatism Is All Gone.

"My wonderful improvement since taking Tanlac is the talk of all my friends and acquaintances," said W. E. Curtis, a well known painting and decorating contractor, who lives at 812 West Grace Ave., Spokane, a few days ago.

"Up to the time I commenced taking Tanlac," continued Mr. Curtis, "I hadn't been able to do any work for about six months. I took to my bed last January and staid there for three solid months, and at one time my folks had given me up to die. My kidneys were in terrible condition, and nobody will ever know how I suffered from the pains in the small of my back. That wasn't all that was wrong with me, either, for I had rheumatism in my hands and feet, and it just seemed that the awful aching pains I had on this account would kill me. I was down and out, all right, and I had no idea that I would ever be a well man again."

"A friend of mine, an insurance man, came out to see me one day, and he told me how much good Tanlac had done him, and advised me to give it a trial. Well, sir, I never saw anything equal the way Tanlac got after that rheumatism, and in little or no time the swelling was all gone from my hands and feet, and now I never have any sign of that awful trouble. The pains in my back are gone, too, and my kidneys seem to be in perfect condition. I don't have to lie awake and suffer agonies every night now, but I just stretch out in bed and sleep like a boy all night long. I have gained a lot in weight and strength, and in fact, I was never in better health in my life. Am back on the job, and never lose any time at all from my work. So you see Tanlac has proved to be a real medicine in my case, and as long as I live I will boost it as strong as I can."

Tanlac is sold in Santa Ana by Rowley Drug Co., in Fullerton by G. W. Finch, in La Habra by R. H. Hilbert, in Huntington Beach by Higdon's Pharmacy, in Orange by Dittmer's Mission Pharmacy, in Placentia by A. J. Robinson, in Tustin by Tustin Drug Co., in Brea by Brea Pharmacy, in Buena Park by Regal Drug Co., in Garden Grove by O. H. Anderson and in Laguna Beach by Laguna Beach Pharmacy.—Adv.

MARINES MUST HAVE NEW GRIDIRON MEN

VALLEJO, Aug. 22.—Whether the Mare Island Marines, for two years supreme in Pacific coast football circles, will be a factor in the coming season is a question causing much concern to the "leathernecks." With most of the stars of 1917 and 1918 gone, much new material must be developed if the team makes a showing.

Some new medium of development may have to be found also. Lonesta Dietz, former Washington State College coach, who coached the winning Marines, is at liberty under bonds pending trial in Spokane, and appearance in court may interfere with his ability to devote full time to coaching the "first to fight."

Lieutenant Johnny Beckett, former University of Oregon player, and once captain of the Marine eleven, is in France, relinquishing command of a machine gun unit to supervise embarkations. Dick and Ray Hanley are both out of the service and back at the University of Oregon. Mitchell and Gardner, also Oregon stars before they played with the Marines, will play with the Olympic Club this season. Ambrose will not be available and "Shy" Huntington, honorably discharged, will coach Oregon.

However, there is a wealth of new material available, and the service men predict a formidable machine will be developed when the season against collegiate and club teams opens in September.

DECISION NOT LIKED
SAN FRANCISCO, Aug. 22.—The fans were much opposed to the decision Frankie Farren was awarded over Earl Baird last night. The bout was clever, but Baird was entitled to a draw or better. Walter Schiller drew with Larry Jones in the former's first professional fight. Bickles Martin won a slugging match from Joe White.

If your skin itches and burns, just use

Resinol

If you are suffering from eczema, ringworm or similar itching, burning, unsightly skin affection, bathe the sore places with Resinol Soap and hot water, then gently apply a little Resinol Ointment. You will probably be astonished how instantly the itching stops and healing begins. In most cases the sick skin quickly becomes clear and healthy again, at very little cost.

Resinol Ointment and Resinol Soap also clear away pimples, redness, roughness and dandruff. Sold by all druggists.

BOY SCOUTS AT LAGUNA SELL WAR BUTTONS

Banner Membership Community Sends In Another \$16; Put 'Decoration' On

Just to show how the situation stands in Laguna Beach with regard to the sale of membership buttons in the Orange County War Recognition Association, the following letter received today by the county chairman is herewith reproduced:

Mr. R. L. Bisby, Santa Ana, Cal.: Friend Bisby—I am enclosing my check No. 2249 for \$16.00, which brings Laguna Beach subscriptions to \$150.00; also sending twenty buttons, which I will not need, I am retaining a few and, although our field is well covered, we will keep on the lookout for anyone who does not wear one of these strictly up-to-date decorations. Mr. Webster defines "decoration" as a "badge of honor," and it is fitting to refer to these buttons as "decorations."

The Boy Scouts, Owl Patrol No. 1, of Laguna Beach, rendered, their usual efficient assistance in this last drive, one lad winning a flag for selling a certain number. You know, friend Bisby, it's pretty hard for even a confirmed slacker to turn down a Boy Scout with his eyes shining with patriotism, his uniform neat and clean, his face fairly glowing with enthusiasm. It's pretty hard, indeed, to explain to this typical American lad why you haven't got a "decoration" on, especially when the lad wears one himself.

One of these lads said in my office, with his face about a foot long: "Say, wot do you think, old—turned me and the whole gang down for a button. He said, let the government take care of the soldiers. (By the way, not very consistent of him, as he refused to buy Liberty Bonds). Gee, that guy ain't got no heart. I'll bet he cuts his own hair."

Say, Bisby, my idea of hard luck would be to have all the boys think that of me.

Sincerely,
JOE SKIDMORE.

JUDGE KNOCKS OUT TORRENS LAND TITLE

A case which is likely to develop into one of national interest may result from a decision rendered by Judge Lewis R. Works, of Los Angeles county, says the Financial-Insurance News of Los Angeles. The case in question involves the legality of the Torrens Law, and if the decision is upheld by the higher court it will have the effect of annulling the Torrens Law of this state.

The case decided was one brought against the Pacific Light & Power Company, and arose out of the following circumstances: The power company purchased a right-of-way for its power lines across land owned by Charles Bogart. After the power company had recorded the deed and gone into possession of the land, erecting its poles and stringing its wires, Mr. Bogart placed his property under the Torrens Law. He failed to mention the interest of the power company, and the Torrens certificate of title issued to him made no reference to the interest of the Pacific Light & Power Company, this notwithstanding the fact that the power company was in possession of the land and held a recorded deed for its right-of-way.

After registering the property, Mr. Bogart sold it for its full market value. The purchaser examined the Torrens certificate of title, which showed that Mr. Bogart owned the property, free from all claim of every nature. After purchasing the property, the interest of the power company was discovered, and when the power company refused to remove its poles and wires, an action was brought to evict it from the premises. It was admitted at the trial that the plaintiff was an innocent purchaser, and had relied entirely upon the Torrens certificate. Nevertheless, the court held that the plaintiff could not recover.

B. Rey Schauer, who represents the plaintiff, said, "I will appeal the case. If this decision is upheld by the Supreme Court it will have the effect of making Torrens certificates of very questionable value. The Torrens Law provides that a Torrens certificate cannot be questioned, and in rendering judgment for the defendant Judge Works has practically nullified this provision of the statute, and in effect held the law unconstitutional." Mr. Schauer further stated that this is the first case to his knowledge which has arisen under the Torrens Law in the United States where the courts have been called upon to decide the effect and value of a Torrens certificate.

Property owners and investors throughout the state will watch this case with great interest, because, if the Supreme Court upholds the decision of the trial court, a Torrens certificate will be of no greater value than a deed, and it will be necessary for persons dealing with property to examine into all of the records to ascertain whether or not the holder of a certificate has title to the land.

This development will be a great surprise to property owners who have had great faith in this law, and have registered their property believing that the Torrens certificate would be accepted as final.

CLOUDBURST IN EAST CAUSES HEAVY DAMAGE

UNIONTOWN, Pa., Aug. 22.—More than \$100,000 damage was done in the Connelville coke region early today by a cloudburst, which flooded mines, swept away buildings, street railway and railroad tracks. Several persons are reported to be missing at Herbert, several miles north of here.

WHITE CROSS STORE NEWS

Here are some fine specials for tomorrow—everyone of them attractive; and big bargains they are, too. In selecting these Saturday features we are careful to pick out useful, everyday articles. Here you have Auto Chamois, Sponges, French Face Powder, Powder Puffs, Colgates Soap, Highland Stationery and similar good things. Coming to the White Cross for your drugs, household goods and sundries is not only a pleasant but a profitable habit. Always look for White Cross Saturday Specials.

Coronal Theatrical COLD CREAM Regular Pound, 60c SPECIAL SATURDAY, 50c

If you are not using Coronal Theatrical Cold Cream, surely you will want to get acquainted with it at once. We have made it one of our Saturday Specials, a full 60c pound can for... 50c

RESPIRATOR

Besides emory workers there are many housewives using Respirators. When sweeping or where there is danger from contagious disease. Respirators are most necessary—all dust is germ-laden—don't inhale it. Use a Respirator—\$2.00 Respirator, special at... \$1.50

L.A. Youth's Neck Broken In Runaway of Haybaler

Thrown from the hay baling machine upon which he was riding while the outfit was moving to a new location, Joseph Brittan, aged 22, of Los Angeles, sustained a broken neck, dying instantly. The accident happened late yesterday afternoon near the big Whiting ranch.

Brittan, who, it is said, was recently discharged from the navy service, had been employed about three weeks on the Albert Gibson hay baling machine. Comparatively little was known of him or his relatives.

Yesterday afternoon the outfit was being moved to a new field, the route to which lay down a grade on the county road near the Whiting ranch. Just how the accident happened is not definitely known. Fellow workmen said the wheels of the baler were blocked, but evidently unsafely, for soon the horses and baler were seen plunging down the grade, and Brittan was pitched from his seat. One report was that the wheels of the heavy baler ran over him, but others believe his neck was broken in the fall.

Coroner Brown was notified and the remains brought to the Smith & Tutthill parlors last night.

It was known that Brittan has a sister, and possibly other relatives in Los Angeles, but neither their names nor addresses were known, and all efforts to get into communication with them last night failed. Gibson and another member of the baling outfit, however, thought they knew where the sister lives, and went to Los Angeles this morning in an effort to locate her.

Arrangements for the coroner's inquest and funeral were being held up pending word from the dead youth's relatives.

PROBATION ASKED IN MOTOR THEFT CASE

Pleading guilty to a charge of stealing a motorcycle, Robert Silk in Department 1 of the Superior court today asked for probation.

Silk's application for clemency will be heard before Superior Judge Williams Friday.

The complaint against Silk was sworn to by T. J. Neal.

PERSONALS

Mrs. Ida Collins, from Manhattan, Kan., is visiting at the home of Mrs. P. G. Etchison, at 826 Garfield street.

Wilbur Sherwood and wife passed through here Sunday with their little son, Lyle Dean, on their way to visit their sisters in the northern part of the state.

Mr. and Mrs. D. F. Bickley were surprised last evening with a short visit from their grandchildren, Mr. and Mrs. William Myers, who motored down from Fresno.

Mrs. J. B. Frogeley, who formerly conducted the Allerton hotel, now of Bakersfield, visited at the Thomas Ash home, and today, on account of the strike, Mrs. Ash and daughters took her by automobile to a sister's place in Los Angeles, where she will visit.

Mr. and Mrs. W. H. Best and Miss Hester Covington returned yesterday from a motor trip to San Francisco, where they took Arthur Best to enter University of California. During their absence, Mr. and Mrs. W. A. Covington and little son of Imperial Valley, stopped over here on their way to Bakersfield for a brief visit with Mr. Covington's mother, Mrs. P. H. Covington, of South Birch street.

A Little Worse

Jermyn—Is there anything more exasperating than to have a wife who can cook but won't do it?

Gerard—Yes—to have one that can't cook and will do it.—London Answers.

TOBACCO HABIT DANGEROUS

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug of Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and in the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

IN FRANCE JOE IRVINE PLAYS FOOTBALL

From 10,000 Soldiers Santa Anan Picks Out a Winning Team

After two years' service with the Marines and thirteen months overseas guarding German prisoners at Montier-Chaume, where one of the largest supply bases for the American army was stationed, Gunner Sergeant Joe Irvine, son of Mr. and Mrs. W. A. Irvine, of CaGriffeld street, returned home yesterday afternoon. While overseas, Irvine enlarged his fame as a football player.

Sergt. Irvine enlisted over two years ago, was sent to Quantico, Virginia, and from there to Montier-Chaume, France, where 1000 German prisoners were kept and used in digging ditches, loading cars and similar heavy manual labor.

Sergt. Irvine was fortunate in getting liberty and was able to visit most of the larger cities, taking in practically all of France. He was sent to Hampton Roads for his discharge and after securing his release spent four days with friends in Washington, D. C. He also stopped at Kansas City for a few days.

Sergt. Irvine got his football training in Santa Ana High School, where his "million-dollar toe" is still traditional. He was an excellent place-kicker.

Overseas, Irvine took a prominent part in a series of championship football games. He was made captain of a team, and since he had the pick of 10,000 soldiers, he turned out a rating good team, which took the championship of all army teams playing in that section.

In field events, Irvine took events. He made a record of 100 feet in a discus throw.

DIAMONDS

If you have a diamond that you do not wear why not sell it and buy something that you will really enjoy. As manufacturer jeweler using diamonds constantly we can afford to pay highest market prices.

THE CRAFT SHOP

3rd Floor O. T. Johnson Bldg., 4th and Broadway, Los Angeles, Calif.

LOCATING A POULTRY HOUSE
Select a location for a poultry house that has natural drainage away from the building. A dry, porous soil, such as sand or gravelly loam, is preferable to a clay soil.

In most localities the building should face south, which insures the most sunlight throughout the year.

Allow about three square feet of floor space to a bird. Proper ventilation and sunlight mean a dry house and healthy birds.

CUTLERY

We think that we are very fortunate in having secured a good shipment of Cutlery which puts our stock in splendid shape. See us for Pocket Knives and remember that we sell the Keen Kutter Shears. We are headquarters for Razors and Razor Blades, and make a specialty of Kitchen Knives, etc.

LAUGH CURE

The government saves the American public a billion dollars a year by enforcement of the laws prohibiting the use of the mails for fraudulent purposes. If it were merely a matter of enforcing laws many hundreds of thousands more might be saved. The real remedy, however, lies in public education.

As long as the average human being is so willing to be caught and so eager to fall for every new wile of the swindler, he will step into every trap set for him. Whether the crook uses handsomely embossed stationery as evidence of reputable position and prosperity, or whether he simply appeals to the common desire to get something for nothing, he continues to catch his thousands of dupes.

There is one ray of hope. Green goods and gold bricks have about disappeared from the swindler's market. The public was ridiculed and laughed out of the habit of purchasing gold bricks. The jokers and comic cartoonists may be said to have assisted the authorities in ridding us of that particular pest. Perhaps if a great, nationwide laugh could be started and directed against the foolish ones, who are caught by the mail-order frauds, these, too, would be put out of business by a slump in trade. The kind of man who "bites" for these things usually hates worse to be laughed at than to be fleeced.

PHYSICAL TRAINING

In the Red Cross Magazine Charles K. Taylor, a sergeant in the 102nd engineers, 27th division, reports some of the views expressed by his comrades at an officer's training school in France.

The boys were pretty solidly against universal military training. They knew exactly why, too. They said it destroys resourcefulness; destroys individual initiative; it is an artificial discipline, allowable only when men impose it on themselves for the sake of a great object, such as winning a war. They were rather down on too much "preparedness for war" in spite of the fact that the nation unprepared was apt to be caught at a big disadvantage.

As Sergeant Taylor reports their belief, it was worth while to make a sacrifice to retain the racial characteristics of the Anglo-Saxons and those sharing and adopting their ideas. And besides, the army with the greatest individual resource and initiative would win the war in the end, anyway.

It was different with universal physical training. Experts have said that the high percentage of men who were found by army physical examinations to be "unfit" can be greatly reduced if physical education is undertaken in time. The proper time is not when the boys have reached the military age, but when they are entering school. Furthermore, the soldiers were scornful of "silly and ineffectual class calisthenics." They wanted real exercise, developing the body and adapted to individual needs of pupils. They believed that the social and economic value of reducing the percentage of physically unfit would more than repay the cost of such a system.

Physical training appeared to them better than military training because it could be undertaken at so much earlier an age. The latter usually comes far too late to do any good, and it takes only those who are already in fairly good shape.

All this is pretty much what the average American thinks. If he wants any kind of military training he wants the emphasis to be on the body and mind development side, and not on that of militarism. Americans in general realize the great value of better physical education for everybody.

CRITICISM OF JUDGES

The imprisonment of a newspaper editor in Memphis, Tenn., on a charge of contempt of court, is resulting in a wholesome questioning throughout the country of the oft-asserted immunity of the bench from public criticism.

The editor concerned had published a political editorial in which he mentioned no names, but made a general criticism of political conditions and their connection with the judiciary. This was taken by a Memphis judge as a personal criticism of him. On the ground that the editor had attacked

him in order to influence a pending lawsuit, he ordered the editor to jail for ten days.

Whether this particular action was just or unjust need not be discussed. Most of those who have commented on it seem to think that the editor was within his rights. As regards the right and duty of newspapers in general to criticize the courts when occasion seems to require it, there is general agreement.

Perhaps the best comment in support of such criticism is that made some time ago by former President Taft, himself one of the most distinguished members of the bench and bar, addressing the American Bar Association. He said:

"The opportunity freely and publicly to criticize judicial action is of vastly more importance to the body politic than the immunity of courts and judges from unjust aspersions and attack."

"Nothing tends more to render judges careful of their decisions and anxiously solicitous to do exact justice, than the consciousness that every act of theirs is to be subjected to the intelligent scrutiny and candid criticism of their fellowmen."

There are few men, whether they are judges for life or for a shorter term, who do not prefer to earn and hold the respect of all, and who cannot be reached and made to pause and deliberate by hostile public criticism.

"In the case of judges having a life tenure, indeed, their very independence makes the right freely to comment on their decisions of greater importance because it is the only practical and available instrument in the hands of the people to keep such judges alive to the reasonable demands of those they serve."

TRADE SUCCESS

American commercial activity in Europe is said to be advancing on a large scale. Exports are steadily increasing. And in so far as those exports consist not of commodities particularly needed here at home, but of machinery and other products which can be spared, and are calculated to create a profitable and permanent foreign demand, the American public rejoices with the manufacturers.

The secret of present success in the foreign field is said to consist mainly in the prompt delivery of goods and the long credit given. The American exporters are beating the Germans at their own game.

It is gratifying to learn that our exporters at last are profiting by the lessons so long preached in vain. They might have won the foreign markets long ago, to a much greater extent, if they had studied and ministered to special foreign demands as they are doing now.

There are some things more expensive than food. Ostrich feathers are selling wholesale at \$100 a pound.

Trust League

Pasadena Star-News

Premier Lloyd George, of Britain, is a consistent friend of the League of Nations. In a fervent speech, in the House of Commons, in which he discussed different phases of the present critical state of affairs in Great Britain and throughout the world, Mr. Lloyd George urged strongly that promoters of the League of Nations should show their faith in it by their works. He said that those who believe most in the league must trust it most, and then the rest would follow them. He pleaded strongly for a reduction of armaments, as provided for in the league covenant, and said that Great Britain was ready to reduce as a first condition of real economy in world armaments, and after all other countries were ready to cut down their respective armaments, economy would result.

The British premier struck a strong and logical note when he said that those who believe most in the League of Nations must trust it most, and the others would follow them. This is a fixed psychological rule—faith begets faith, confidence begets confidence. If the United States, Great Britain and France, for example, professing to trust implicitly in the League of Nations, evince their sincerity by works demonstrating conclusively that they do believe in the league and are determined to abide by and use its provisions as they were intended to be observed and used, then other nations will be influenced to have the same measure of respect for and confidence in the league.

The Budget System

California Taxpayers' Journal

Although it meets with many political obstacles and many barriers of red tape and established custom, the movement for correct governmental budgetary practice persists and becomes more active. The national government makes no budget. Only a few of the states proceed upon a budget basis, and even in those states having budgets the practice is far from modern in nearly every instance. Counties and cities make up what are called budgets, but what in reality are little more than guess-work estimates.

It is clear to all who give the slightest attention to the economic side of governmental administration that modern budgets are absolutely necessary to good financial management. Why should those who control government hesitate to adopt the budget system?

Congress is pledged to adopt a budget law for the Federal government, and yet it shows no active intent to make good on its pledge. Every congressman and senator ought to "hear from home" on this subject at once.

Both Paths Lead to Ferry

Abnormal Business Conditions

In ordinary times there is little disposition to scrutinize the profits made by producers, manufacturers, middlemen, wholesalers and retailers. It is assumed that competition will take care of prices, and that in general any branch of any industry is probably entitled to whatever profit it can make through special ability and efficiency.

But these are not normal times. Competition is not operating as usual. Supplies are not accessible as usual. Transportation and credit and other factors are in an abnormal condition. All the affairs of the world are unsettled. People are harder put to it than usual to make both ends meet.

In this disturbed situation, there is little disposition to endure the piling up of fortunes by clever men out of the necessities of the people. It is time for an abnormal restriction of profits rather than an abnormal swelling of profits.

Every business connected with the staple commodities of life must be looked into, and the economic wrongs of 100,000,000 people must be righted.

The People's Forum

Brief communications will be published under this head, provided they be signed by the author. However, the Editor shall be the sole judge as to the propriety of publishing any communications, and the Register assumes no responsibility for any views that may be expressed in this column.

The Good That We May Do

A friend of the Register sends a clipping on the relation of birds to agriculture, and a "Temperance Song" which, it is suggested, it will be appropriate to publish at this time as an ode to Temperance day, August 31.

WHY DESTROY OUR FRIENDS?

In the suburbs of one of our cities recently a man was arrested for shooting 83 robins and two cedar wax wings. When we consider that each year the people of the United States pay a toll of one billion dollars to insects, the reason for protecting our native birds is apparent.

Some birds feed almost entirely on the seeds of weeds, others on field mice and others on rodents. Hawks and owls are considered outlaws, and the average citizen wants to shoot them if he can. It has been estimated that each hawk or owl kills on an average a thousand mice a year.

A recent examination of the stomach of a cedar wax wing (cherry bird) revealed 100 canker worms. In the stomach of a scarlet tanager were found 630 gypsy moth caterpillars. With the continued wanton destruction of native birds, successful agriculture would become impossible and the destruction of the greater part of food vegetation would follow.—Thrift Magazine.

TEMPERANCE SONG

Tune: "Onward Christian Soldier."
Onward, temperance children,
Fighting for the right,
Do not be discouraged,
Work with all your might,
Prayer, the greatest helper,
Leads against the foe;
Forward! is our motto—
See how well we go.

Flowers and trees will perish,
Nations rise and fall,
And our Heavenly Father
Watches over all.
We will work in temperance,
And our cause maintain—
Doing it so thoroughly,
It cannot long remain.

Singing happy children
On this Temperance Day,
Scatter buds and blossoms
All along the way.

What a mighty army!
All one body we,
Trying to help each other
With our charity.

RAISIN PROFITEERING EVIDENCE REPORTED

FRESNO, Aug. 22.—Geo. Hudson, special agent here for the Department of Justice, announced early yesterday afternoon that he had obtained evidence of alleged profiteering on raisin prices in the Fresno district by a local jobber, who charged he made profits far in excess of retail grocers. He also announced that he had found 60,000 pounds of dried apricots held in a local warehouse for alleged speculative purposes. Both charges have been submitted to Hudson's superior officers.

PERSONALS

W. S. Whitney and L. F. Marsile left today for a two weeks' stay at San Juan Hot Springs.
Mr. and Mrs. Robert Northcross

have gone to San Diego for a short vacation.

LEADERS OF MEN

When they are dead, we heap the laurels high
Above them, where indifferent they lie;
We join their deeds to unaccustomed praise
And crown with garlands of immortal bays
Whom, living, we but thought to crucify.
As mountains seem less glorious, viewed too nigh,
So often do the great whom we deify
Gigantic loom to our astonished gaze,
When they are dead.

For, shamed by largeness, little-nesses die;
And, partisan and narrow hates put by,
We shrine our heroes for the future days,
And to atone our ignorant delays
With fond and emulous devotion try.
When they are dead!
—Florence Earle Coates.

Efficiency Club

The regular meeting of the Business Efficiency Club of the Southern Counties Gas Company, was held Wednesday evening at the office of the local company. About fifty representatives of the surrounding cities were present to take part in the business meeting and to enjoy the social hour following.

F. W. Todd, district superintendent and president of the association, opened the meeting. Addresses were given by J. C. Hayden and F. S. Gordon. In the games planned for the evening's entertainment, A. A. Patterson proved himself the greatest artist present and was awarded the first prize. Refreshments were served late in the evening. The Efficiency club has been organized for more than two years and has proven of great assistance in furthering the improvement of business methods and in making it possible for the different forces to become acquainted, which in any business proves of great value.

"A Night Off"

The employees of James' Confectionery had the surprise of their young lives (most of them are young) last night, when the store was closed and they were all bidden to be seated at a long, beautifully decorated table in the gold room and served with a delicious four-course dinner. It is very seldom that an establishment like James' can be closed, but last evening repairs to the fountain were necessary and at six o'clock the front doors were locked for the night. The young women servers and the cook were told that there was to be banquet for twenty-five in the evening and so the tables were arranged and those to serve went all spick and span in their crisp white aprons and perky caps. Then came the surprise, as all were bidden to be seated.

Mr. and Mrs. James were the hosts and were amply repaid for the courtesy as they saw the delight of their employees and of their own little daughter, Juanita, who thoroughly enjoyed a "really, truly holiday."

Victrola music and jolly chat were enjoyed and later they all journeyed to the West End theater and laughed at Bryant Washburn in "A Very Good Young Man."

The following is the list of the happy crowd, who enjoyed the James hospitality: Mr. and Mrs. Frost, Mr. and Mrs. Sherman, Mrs. Armstrong, Mrs. Spradlin, Mrs. Artie Walton, Mrs. Fred Mahoney, Misses Anna Hafer, Ethel Walker, Mildred Dixie, Bernice Hayes, Sadie Kiens, Pauline Benjamin, Zella Davenport, Minnie Koser, Ora Simmons, Owens, Helen Garstang, Flora Sievers; O. G. James and Harold Wright.

Day or Night Calls

609 N. Main St. Santa Ana, Cal.

Now Has 255 Members

The regular meeting of the Relief Corps was held yesterday afternoon in G. A. R. hall. The attendance was good and the president, Mrs. Harriet Coulter, presided. The following named ladies were initiated and became members of the corps: Ella D. McGinnis, Susan Talcott, Lillian A. Pullin, Ida Walker, O. V. Barton, Mrs. Gertrude Miller, Louisa Miller, Mabel V. Briney, Bertha J. Briney, Theresa M. Wallace, Sarah Utley, R. G. Sutton, Virginia Shriver, Elizabeth McVay, Eva Miller, Susan Haason, making a total membership of 255. Seventeen applications were received for membership to be reported on at the next meeting.

It was announced that the Salt Lake Railroad Company would furnish a special car through from Santa Ana to Columbus, Ohio, if a sufficient number of delegates and visitors could be obtained. It would seem that those going, who have not already arranged to go on the special train from Los Angeles, would be glad of the chance to start direct from here. Some have already gone and others are going at different dates and routes as they expect to visit friends before reaching Columbus.

There have been about 100 certificates given out—56 from the corps beside those from Sedgwick Post, Daughters and Sons of Veterans, and the G. A. R. ladies.

This number is probably a low estimate as it was impossible to get the entire list of names as yet. Among those going including the members, are Mr. and Mrs. Henry Yeant, Mr. and Mrs. W. J. Lieser, Mrs. Harriet Coulter, Mary Crissman, Viola Phips, Jane Dunning. These are but a few of the number.

Compliment to Former Teacher

Honoring Mrs. James Jones of Independence, formerly Miss Della Wright, who with her small sons, William and Dick, are visiting with her mother, Mrs. Silas Wright, Miss Hazel Bemus, assisted by her sister, Mrs. O. H. Clayton, entertained with a party yesterday afternoon.

Miss Bemus used golden glow and candles in decorating her home, with the same attractive colors in the light refreshments. During the afternoon hours the guests visited together while they occupied themselves with fancy work and assisted the small children with their amusements.

Present were Misses Silas Wright, H. J. Roberts, Frank Bemus, O. H. Clayton, Rose Sherwood, R. W. Diver, and Misses Fannie Pease, Mary Giff, and the hostess, Miss Bemus. A small table was placed for the little guests, Fannie Nell Clayton, Virginia Diver, William and Dick Jones.

Mrs. Jones and Mrs. Diver are both former teachers in the city schools. Mrs. Diver will be remembered as Miss Alice Robinson and at the present time is visiting with her mother, Mrs. W. K. Robinson, on South Sycamore street, as it is too warm for them at their home in Brawley. They expect to remain until the middle or last of September.

Mrs. Jones will remain until next week with her mother, when she will go to Los Angeles for a visit, preparatory to her return home.

Pleasant Motor Trip

E. B. Covington and family, Mrs. J. M. Bird, Mrs. Elizabeth Shipley, Miss Ora Tingley and Mr. and Mrs. Marcus Phillips motored to San Bernardino and Redlands yesterday, where they visited with Mr. Covington's brother and sisters.

The trip was made especially for Mr. and Mrs. Phillips, who have been visiting here with relatives for some time, and who expect to return to their home in Kingsville, Texas, the early part of next week.

They went by way of Pomona, returning through the canyon. A picnic dinner was spread in a grove near Redlands at noon. Smiley Heights was one of the points of interest visited.

Home From Fine Trip

Mr. and Mrs. N. J. Warner, 1417 North Main street, returned home last evening from an extended visit to their old home in Spring Valley, Minn. Mr. Warner says he found tremendous business activity all over the Upper Mississippi valley, especially in real estate, and is not surprised to find things "on the move" here at home. Mr. Warner is one of Orange county's most active and successful real estate men, and will no doubt get into the game again promptly and effectively. Miss Mildred Warner, who was with her parents on their trip, returned to Eugene, Oregon, by auto with friends, and is now, or soon will be, enroute home if strike conditions permit it.

Pleasant Sodality Meeting

The Young Ladies' Sodality of St. Joseph's church met for a social evening with Misses Mary and Elsie Maag on Fairhaven avenue last evening. Their custom is to meet every three weeks, but during the summer months their meetings were discontinued and last night's gathering was the first since early summer. The list of members last night included:

Misses Helen, Clara, Armilla, Florence and Genevieve Klatt, Anna Oehlke, Anna Young, Kate Owens, Agnes and Elizabeth Rudolph, Ellen Cox, Anna, Helena and Gretchen Liebermann and the hostesses, Misses Mary and Elsie Maag.

Needlework was the diversion for the evening and dainty refreshments were served late in the evening.

Redmen Dance

The Improved Order of Redmen gave a dance on Wednesday evening and it was attended by a nice crowd of young people. During the evening, Chas. Fenwick gave a few interesting recitations, which were enjoyed by all. Refreshments of strawberry short-

CIRCLE'S WORK IS QUIET BUT EFFECTIVE

Charitable Society Formed Two Years Ago Gives Aid to Many

The members of the Rainbow Circle of the First Christian church have been doing some fine work in a very quiet way during the past two years and some of the nice things they have done are beginning to be known, as in such sweet, unselfish and charitable deeds as these, it is difficult to always hide one's light under a bushel. Two years ago when Mrs. F. S. Clark, sister of the wife of Rev. Lloyd Darsie, then pastor of the Christian church, came to Santa Ana to make her home, she organized the Rainbow Circle, which chose for its motto, "Bring brightness into the dark places." Mrs. Clark proved a most enthusiastic teacher and with Miss Etta Conkle as the associate teacher, infused the ardent spirit into the membership, which now numbers about twenty-five. The members include high school and Junior college girls and young married women.

Quiet Wedding

Harry C. Moss and Miss Lulu Tate were quietly married yesterday afternoon by Rev. J. L. Parks at the United Brethren parsonage.

Fraternal Brotherhood Meets

Following the usual business session, the Fraternal Brotherhood was treated to an entertaining program last evening. There was a vocal solo by Miss White, readings by Miss Mabel Harvey and James Ryan, and a flower dance by little Miss Margaret Anderson. Dancing closed an exceptionally pleasant evening.

Hostess at Beach Cottage

Miss Ruth Langley was hostess yesterday to a few of her Camp Fire friends at the summer cottage of the family at East Newport. The girls enjoyed an afternoon on the bay rowing. They visited several places of interest, one was visiting some old movie ships half sunk in the bay. In the evening the merry group gathered around a camp fire and had wieners and buns and everything that goes with a good wienie bake.

Those who enjoyed the pleasant time were Misses Lois Sweet, Marguerite Dickson, Jean Winslow, Gladys Swarthout, and the hostess. The girls missed the rest of the Camp Fire girls who were not able to be present on account of there not being a way for their conveyance.

BORN

FOGG—In Santa Ana, Cal., Aug. 20, 1919, to Mr. and Mrs. Leland J. Fogg, of 710 South Van Ness avenue, an 8 1/2-pound son.

Mrs. Fogg was formerly Miss Eleanor Bartholomew and is a daughter of Dr. J. N. Bartholomew.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.—Ady.

City and County Briefs

The Orange Gun Club will hold a shoot Sunday afternoon beginning about 2 o'clock at the club grounds east of Orange. This is the third shoot for a cup that has been put up as a prize.

The following letters remain unclaimed in the postoffice at Santa Ana, Cal., for the week ending Aug. 3: Foreign: Mrs. Davidson, MaJusos Gomez, Jose Maria Hurtado, Ignacio Castellanos Labra, Maria Carmon Rodriguez, Trinidad Sanchez, B. Uda. It not called for, above letters will be sent to the Dead Letter office.

Victor Loly, who spent three years in France, serving in the Canadian army, has received his discharge and has returned home to Anaheim. He engaged in some of the heaviest fighting of the war.

The La Habra Citrus Association is loading four or five cars at Anaheim this week, as a result of the

Pacific Electric strike, which caught the house with this quantity of fruit picked. The fruit is hauled to Anaheim by trucks and shipped over the S. P.

The Ohio societies of Southern California will hold their annual picnic this year at the Auditorium on the pier, Long Beach, Thursday, August 28. All Buckeyes are cordially invited. The Ohio state picnic is always largely attended and is considered a big day for the Ohioans.

Miss Mary Losch has sold her nicely located house and two lots at the corner of Almond and Lemon, Orange, to C. O. Ferguson. Ferguson will take possession soon. Dutton Brothers and Whitney made the sale.

The Orange County Auto Trades Association members and their ladies are going to have a big time on Newport Bay tonight, with "something" doing from 7:30 to midnight, according to the announcement. A buffet luncheon will be served aboard the "Lunit," with music and other entertaining features also arranged for the boat trip. Only 125 tickets have been sold, and the attendance will be limited to those holding tickets.

City Marshal Sam Jernigan has taken out a permit for building a private garage at his place, 822 South Main street, to cost \$100.

MARRIAGE LICENSES

James Matteson Coe, 25, and Anna S. O'Hanley, 18, both of Los Angeles.

Forrest J. Henkle, 42, and Laura I. Knoblow, 42, both of Long Beach.

Christ Rohe, 47, and Ida Karsch, 45, both of Los Angeles.

Robert J. Bowles, 32, and Leda Frances Gray, 28, both of San Diego.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee, to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

BRITTON MIXES TONIGHT WITH O'DOWD

Experts Believe Lighter Man
Is Taking Big Chance
In Match

NEW YORK, Aug. 22.—Tonight Jack Britton, dean of all the fighters, will take on his hardest assignment when he battles Mike O'Dowd, holder of the world's middleweight title, in an eight-round New Jersey mill. Britton, the welterweight champion, readily agreed to the match when it was proposed to him some time ago and agreed to let O'Dowd enter the ring weighing 158 pounds, which is the middleweight limit.

Experts believe Britton is, for the first time in his long, successful career, taking a step that may lead him into defeat. It is pointed out that he is meeting a rugged, hard-hitting fighter who weighs many pounds more than Britton himself and who may land the knockout punch that so many others have tried and failed with.

Britton, however, insists that he likes these rushing fighters. He contends that Mike will be easy for him to hit, and he depends on his speed afoot to keep the heavier man at his distance. Those who see in the battle the possibility of defeat for Britton, however, declared that O'Dowd has many times proved his ability to hit fast men and that he will be able to reach Britton. One smash from the powerful O'Dowd arms would be equal to several from the mitt of the average welter or lightweight. For that reason they have fears regarding the outcome of the bout.

In no class of battlers is there a better man than Johnny Kilbane, who heads the feathers. John whipped Freddie Welsh finely when that Welshman was champion of the lightweights, but after Benny Leonard had stopped Welsh and grown into the title, John also undertook to defeat him. One punch ended John's ambitions and almost stretched him out for a full count. As it was Leonard was credited with a knockout victory and John immediately ceased to cast longing eyes on the light weight crown.

O'Dowd cannot win the welter title by defeating Britton, but he can make a lot of money out of the battle. That is what is attracting him.

Money also lures Britton, but the weights are such that if he should win by a knockout he would come into possession of the middleweight title in addition to his already achieved welterweight crown.

MILES' HIT BRINGS IN WINNING RUNNER

Raymond Miles hit in the eleventh inning, bringing in Heard, gave last night's indoor baseball game to a picked town team that played the postoffice force. The score was 13 to 12.

The game, played on the East Fourth street grounds, was close and exciting. Horace Snow pitched for John Criddle's team, Criddle being the player who organized the winning bunch, while Elwin Wilcox did the twirling for the mail manipulators.

Those who took part in the game were: Town team—Snow, Walt, Heard, Criddle, Perrine, Miles, Anderson, Robertson, Lalonde, Saunby, Postoffice team—Harvey, Wilcox, Lindsay, Berry, Doney, Warren, Rogers, Smith, Neusbaumer Snodgrass.

"What is Home" without Comfort?

No home attains its maximum success, its maximum power of dispensing pleasure and happiness, until it is furnished in a way fitting the family income. A fairly furnished home that provides a certain degree of pleasure and joy to the owners becomes a well furnished home, satisfactory to the utmost degree to those who dwell in it, when furnishings on a scale commensurate with the family income are within it. Truly, home-lovers are common and are loath to leave their homes, when the furnishings are suggestive of true comfort.

Reed furniture is exceptionally popular this year, and no wonder! It is most attractive, substantial and economical. It is especially practical because it is suitable for bedroom, living room and porch use, and it's very easy to take care of.

You will find pleasure, comfort and satisfaction in our Reed furniture. Some especially charmingly designed pieces, for every room in the house, at the medium and lower price levels. It will delight you to see them.

ANAHEIM SHIPS PROPHECIES TO 1450 CARS OF VALENCIAS BE STUDIED AT CONFERENCE

1000 Cars Already Gone, 450
Yet to Be Moved, Sandi-
lands' Figures Show

ANAHEIM, Aug. 22.—Anaheim was and favorably represented in the eastern orange auctions Monday by the brands of the Anaheim Orange and Lemon Association, they being as usual right up with the topnotchers.

New York—"Anaheim Gloriana," \$7.35; "Delicia," \$5.80.
Boston—"Delicia," \$6.00.
Philadelphia—"Delicia," \$6.00.

Manager G. W. Sandilands, of the Anaheim Orange and Lemon Association, states that the total shipments from this district this season will fully substantiate his estimate made a year ago. It is noted that he gave 1450 cars as his annual estimate last December. He states that around 1000 cars have already been shipped from Anaheim, and that there are about 450 yet to move, and that his estimate that two million dollars will be returned to Anaheim for its citrus crop is not going to be out of line.

Mr. Sandilands, by reason of his long residence in this section and many years in the citrus business, probably knows better than anyone what kind of a crop we are going to have each year. He has been making estimates for years, and each year it is found that his figures are conservative and approximately correct.

I am prepared to handle your ranch horses.

COURTHOUSE NEWS

WOMAN, SOUGHT HERE IN CHECK CASE, JAILED

Burns Detectives Take the
Accused In Charge
In Wisconsin

Informed by the Burns Detective Agency of Los Angeles that Gertrude Sundbury, against whom a complaint charging forgery was sworn to in this city, had been taken into custody, Sheriff C. E. Jackson today wired the sheriff of Juneau county, at Mauston, Wis., for information as to whether or not the woman would waive extradition.

A complaint, charging Gertrude Sundbury with forgery, was sworn to by W. H. Carpenter on April 23 of this year.

The felony of which the woman is accused is stated by Sheriff Jackson to have been committed at Orange.

MAN ARRAIGNED AS KIDNAPER OF GIRL

Brought before Justice Cox today, Luciano Estrada, arrested in Los Angeles yesterday in company with Petra Carrillo, was arraigned on a charge of kidnaping and his preliminary examination set for Monday afternoon at 2 o'clock.

Estrada told the court that he was just about to sign his name in the marriage license book at the court house in Los Angeles when he was taken into custody.

It was stated today that the girl, whom Estrada and three others are accused of kidnaping at Anaheim this week and spiriting away to Los Angeles in an automobile, went willingly with the party.

The girl is being held at the Detention home, pending the outcome of the charges against Estrada.

COURTHOUSE NOTES

Charged with a statutory offense against his niece, Clara Bracamontes, at El Modena, Anice Bracamontes, pleaded not guilty at his arraignment before Superior Judge Williams in Department 1 today and his trial was set for October 14.

An interlocutory decree of divorce, granted by Superior Judge West, has been filed in favor of Ann Elizabeth Abbott from Edward Melbourne Abbott, Ralph D. Lewis and F. S. Sheran were attorneys for the plaintiff.

On behalf of Maude Aletha King, Attorney John A. Harvey has filed an action for divorce from William Claude King.

First citizenship papers have been taken out by Giacomo Molola, a native of Italy, and Charles Victor White, a native of England. Santa Ana is given as the residence in both instances.

With Marks and Lauer of Fullerton as his attorneys, Public Administrator Brown today filed a petition for letters of administration in the estate of S. P. Folker, who died at Fullerton on August 15. Property valued at \$2111 was left by the deceased, according to the petition.

According to an inventory filed today by State Tax Appraiser Anderson, the estate of Mary A. Gordon is valued at \$12,000.

The hearing on the demurrer of Jacob Fischer, defendant in a \$600 action for damages brought by W. P. Perry, was continued today by Superior Judge Williams in Department 1 until September 5. The case is the outcome of an automobile accident.

A continuance until September 5 was granted in Department 1 today by Superior Judge Williams on the hearing on the demurrer to the second amended complaint in the case of Chas. Kerr against Wm. Lee Bridges, Roy Wilson and E. F. Morales. The case revolves about a Ford automobile, sold in Los Angeles on the installment plan, and an alleged violation of the terms of the sale agreement.

The case of George H. Beckman vs. Theodore Roberts was set today for trial in the Superior court on October 1. The case centers about the division of a commission on the sale of real estate northeast of Anaheim.

CORDOVA THEATER OPENS
CORDOVA, Alaska, Aug. 22.—The Empress Theater at Cordova was formally opened recently. The building cost 75,000 and the theater patrons are regaled with music from an \$18,000 Kimball pipe organ.

WOMEN, CHILDREN RULE ON DIOMEDES ISLAND

NOME, Alaska, Aug. 22.—Women and children rule on Little Diomedes Island, one of the far Northern Islands that stand half way between Nome and Siberia. Centuries-old customs are practiced. Women govern their husbands; children control their parents. A husband must get his wife's consent to make a purchase. If his mother is living with the couple he must first get her consent, then his wife's. The rich provide for the poor and wealth is estimated in skins. Persons may be lawfully killed at their own request.

LONDON.—For the first time in history four women reporters have been added to the House of Commons staff which reports Hansard, the official record of the debates.

STOLEN JEWELS IN COURT IDENTIFIED

Held to answer to the Superior court on two separate burglary charges, Francisco Torres, recently arrested in the southwest part of the city, is again in the county jail today, in default of \$3000 bail.

Bound over at noon yesterday on a burglary charge brought by Mrs. Rebecca Pease, Torres' bail was fixed at \$1000. In the afternoon he was again brought into the Justice court, this time on a complaint sworn to by C. E. Redmond, also charging burglary. He was bound over on this charge, and bail fixed at \$2000.

Witnesses called at the hearing of Torres on the Redmond complaint were A. E. Selvedge, W. R. Rogers, Jose Garcia, C. E. Redmond, Mrs. Ethel Redmond, Charles C. Redmond and Theodore Lacy, Jr.

Among the articles identified yesterday afternoon were six rings, a brooch, a watch chain, a gold locket, two opals, a bracelet, a suit case, an overcoat and a pocket knife.

Deputy District Attorney A. P. Nelson appeared for the state.

GRANTS CONTINUANCE IN SNELGROVE CASE

On the request of his attorney, John S. Steely of Los Angeles, a continuance until tomorrow morning at 10 o'clock was granted today by Superior Judge Williams, sitting in Department 1, in the case of A. Snellgrove, automobile repair man of Ramona Acres, charged with a statutory offense against Lillian Doyasbere.

'Round Coast League Bases

Bunts peoples the bases for Seattle in the 13th inning yesterday, then Murphy singled, shoving a run across and defeating the Oaks 2 to 1.

A heaving duel between Wheeler Dell and Red Oldham was won by the sorrel thatched one, the Beavers winning, 2 to 1, a game with 11 hits.

The Seals were harpooned again—their thirteenth defeat in their last 17 games on the home lot. Lefty Leverenz and poor base running held the Seals to one tally, while ten hits, wild pitching and poor fielding netted the busy Bees five runs.

Just to show his appreciation of "Rube Ellis day" at Los Angeles, the veteran outfielder—an angel since Gabriel was appointed angelic bugler—scored the first run and singled to score another. The Angels won, 5 to 2, from the Senators. Ellis was given many presents by fans and players.

Great lawyers declare that the killer could not be legally tried. Well, poison gas was tried illegally.

Twelve New Teachers for Santa Ana High School

RULES TO STOP SPREADING OF WALNUT PEST ARE ISSUED

Hecke to Prevent Moving of Infested Sacks to Clean Orchards

Rules and regulations designed to stop the spread of the walnut codling moth have been issued by G. H. Hecke, director of the State Department of Agriculture, and are to be rigidly enforced during the coming walnut harvest.

The principal feature of the moth-control regulations centers around the order prohibiting the removal of sacks or other walnut containers from an infested district without proper inspection and fumigation. The plan aims to prevent moths being carried into clean orchards.

The last legislature made an appropriation, approved by Gov. Stephens, of \$10,000 to be used by the state department as an aid to control the walnut moth. The aim of the state's rules is to hold the moth in the districts where it now is, giving the state and federal authorities time to work out methods for complete control or extermination of the moth.

Director Hecke has issued a bulletin reviewing the situation and giving in detail the rules and regulations signed by him for the purpose of controlling the moth.

The bulletin says:

Reviews Situation

"For a number of years a variety of the codling moth has appeared in the walnut groves of California. During the past season, in the districts of Santa Ana and Carpinteria, the pest has increased with such amazing rapidity that in a number of groves the aggregate loss represents 40 per cent of the crop; nor does this total the losses chargeable to its operations.

"Its method of feeding is so insidious that in the infested districts packing houses are forced to resort to hand sorting as the only means of culling out the infested nuts. In the Santa Ana district this extra overhead represents an item of \$250 per day. In addition to the above consideration, great congestion is caused by the extra time needed in this hand sorting of the nuts, which reduces daily handling capacity of packing houses from 50 per cent to 66 per cent.

"Such evidence of its potentialities as a pest of walnuts makes the codling moth without doubt the worst pest that has ever confronted the walnut grower and one which will require drastic measures in its suppression.

"To provide a means to successfully combat this menace, the legislature of California has appropriated the necessary funds and charged the Director of Agriculture with carrying out the provisions of an act regulating the traffic in walnut sacks for the purpose of applying measures to effect the control of this pest."

Hecke's Rules

The regulations governing the movement and treatment of walnut sacks and other walnut containers, in accordance with the act follow:

"1. For the purpose of these regulations the following words are here-with defined:

"(a) 'Walnut codling moth' shall include all varieties and forms of the insect *Laspeyresia pomonella* which are known to utilize the walnut (*Juglans regia*) as a host.

"(b) 'Person' shall be construed to indicate either singular or plural as the case may be, and shall include individuals, partnerships, corporations and associations.

"(c) 'Establishment' shall be construed to mean any building or premises where walnuts are bought, sold, stored or handled in any manner whatsoever.

Equipment For Treatment

"2. It shall be the duty of any person operating an establishment for the purpose of handling or storing walnuts to provide said establishment with proper equipment approved by the proper state or county official for the purpose of treating all sacks infested with, or which, in the opinion of the proper inspecting official, may have been exposed to infestation by the walnut codling moth; provided, however, that whenever it shall be deemed advisable in the interests of efficiency the Director of Agriculture or his duly authorized representative may make necessary arrangements to have such treatment for the destruction of the said walnut codling moth at some other establishment where proper equipment has been installed for this purpose.

"3. No sacks which have been used as containers for walnuts brought to any establishment where walnuts are handled shall leave the said establishment until subjected to the necessary treatment to prevent them from acting as carriers of the said walnut codling moth.

"4. It shall be unlawful for any person to transport from any locality or county to any other locality or county any sacks which have been used as con-

Engineer Plans To Divert Elsinore Water To Irvine Ranch; Elsinore Fights It

(By HORACE FINE, of the Register Staff)

ELSINORE, Aug. 22.—A thirteen-hundred foot tunnel through the mountains, forty or fifty miles of pipe line, with an investment of \$1,500,000 and presto! 20,000 acres of the great Irvine ranch will produce as they never produced before, with life-giving fluid from Elsinore lake as the compelling power.

This is the vision—or dream, if you will call it that—of Geo. Lammy, engineer, who has filed on 6000 inches of water of Elsinore lake, and whose application now is before the State Water Commission.

The people of Elsinore are ready to fight the petitioner and defeat the proposition if possible.

In his application the petitioner states that it is his purpose to convey the lake water to the San Joaquin ranch for the irrigation of 20,000 acres of the rich level land on the big Irvine holdings.

It is his plan to tunnel through the mountain for a canal with the intake some 300 or 400 feet inside the lake shore line. The tunnel will carry the water to Temescal canyon whence it will be carried to the Santa Ana river and thence down the canyon and eventually to the big ranch.

He estimates the cost of the project at \$1,500,000. His application does not indicate whether it is a promotion scheme of his own or whether he is being backed by big financial interests.

Hearing before the commission is expected in the near future. When the hearing is held, Lammy is not going to have everything his own way, for the citizens of Elsinore, the home of the sulphur water that has made the place the mecca for afflicted, are not going to sit idly by and see the pond drained for the enrichment of lands in Orange county.

Protests already have been filed by the Chamber of Commerce, the city and other interests of Elsinore. Quick depletion of the waters of the lake is seen by the citizens, with possible elimination of a feature that now is a big asset to the resort.

Not Much Disturbed

And still the people are not very deeply perturbed over Lammy's scheme for they do not believe it feasible for several reasons: The engineering problem is considered more or less feasible, but the application of the water to lands for tree growth is another story. According to the statement of Elsinore residents, there is a great deal of alkali in the water—in fact it is so strong that it will kill.

And still the people are not very deeply perturbed over Lammy's scheme for they do not believe it feasible for several reasons: The engineering problem is considered more or less feasible, but the application of the water to lands for tree growth is another story. According to the statement of Elsinore residents, there is a great deal of alkali in the water—in fact it is so strong that it will kill.

Detailed Hotel Plans To Be Finished in Few Days

Detailed plans for the new tourist hotel that is to be erected in Santa Ana are practically completed by the architect, Myron Hunt of Los Angeles, and plans and specifications will be in shape within a few days for submission for bids. Trustees of the hotel held a conference with Hunt in Los Angeles this week.

Preliminary estimates have been secured by the architect under which he has assured the trustees of the hotel fund that the hotel can be built with the fund that is available.

Those who have been following the hotel matter closely are confident that construction will be started within a short time, and every effort will be made to rush construction to an early completion.

General plans of the hotel were announced four or five weeks ago. When detailed plans are completed, as they will be within a few days, action will be hastened.

THEIR HOME SOLD; ANOTHER IS BOUGHT

Mr. and Mrs. J. C. S. Garrick have made a quick sale of their pretty five-room bungalow at 706 South Van Ness avenue to Bowen Mathews, who came here recently with his family from Oxnard, to take a position as manager of Gilbert's dry goods store.

Mr. and Mrs. Garrick immediately purchased another home, the John Criddle place, from L. L. Shaw. It is located at 2215 Birch street. Shaw and Russell made the sale.

H. H. KELLY RESIDENCE ON VAN NESS IS SOLD

H. H. Kelly has sold his beautiful residence at 636 Van Ness street to William Passer, long a resident of East Seventeenth street, now living at 1901 Spurgeon street.

This is but one of a number of sales made in the last few days, some of which are still pending in the abstract and title offices.

Fletcher Music Method. Nell Isaacson, 422 Spurgeon Bldg. Pacific 1455.

WATER CARNIVAL BAY FEATURE TOMORROW NIGHT

Illuminated Boat Parade Arranged; Prizes For Artistic Lighting Effects

Thousands of Orange county people enjoyed the water carnival and illuminated boat parade on Newport Bay, June 21, the first event of its kind this season. The decorated boats with their strings of Japanese lanterns and music were delightful, BUT while that illuminated parade was the first of the 1919 season it was not the last, and another such occasion—more delightful if possible than the last—has been arranged for tomorrow night by the Balboa Carnival Association.

The summer season is now in full swing, thousands instead of hundreds are enjoying the pleasures offered by beach and bay, and without doubt the lighted parade will be bigger and better than that of June. There are a lot of pleasure boats in the bay—anyone can see that—and many of their owners are now at the beach, so they will be all ready to take part and add to the gaiety of the occasion. The Newport Harbor Yacht Club boats, it is announced, will be out in full force.

Plans have been under way for some weeks for tableaux on the bay, and it is anticipated that this feature will be held, despite the departure for their homes of some of the summer visitors who were to have taken part. Also there might be a band or something like that—you never can tell just what the Carnival Association is likely to spring at the last minute. Tomorrow is also Los Angeles county day, and Los Angeles will undoubtedly be well represented.

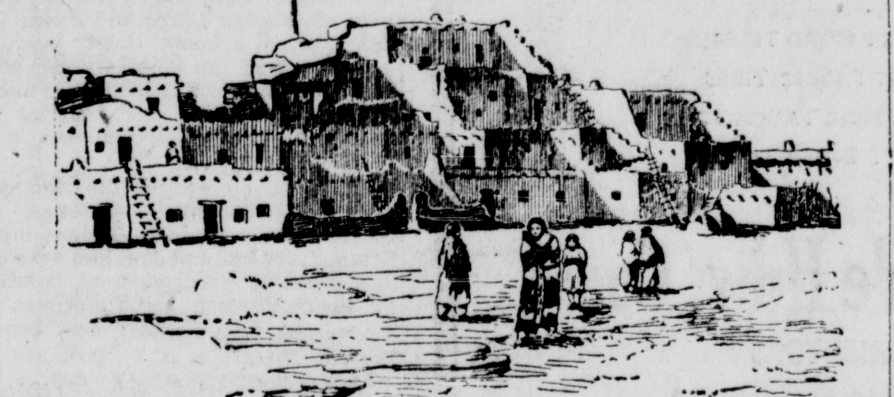

Speedboat Race August 30

Another important event is scheduled for next Saturday, August 30, officially designated as California Day. A feature of the occasion will be the Yacht Club's speedboat race, when it is expected several of the fast boats now in the harbor, as well as others from San Pedro, will take part in a snappy, happy speedfest.

BUREAU OF EDUCATION WILL COUNT ALASKANS

JUNEAU, Alaska, Aug. 22.—The government will place the matter of taking the next census of Alaska in the hands of the Bureau of Education which will operate through its teachers, doctors, field superintendents and other employees. The last census of Alaska cost \$75,000 and of this amount the government figures \$50,000 can be saved by passing the buck to the Bureau of Education.

Santa Ana Red Men Will Take Part In Impressive Ceremonies at San Diego

The Painted Desert where Red Men will Hold Ceremony.

Open Air Class Adoption Will Be Held Sept. 1 at Balboa Park

Members of the Improved Order of Red Men of Southern California have discovered an appropriate and unique place in which to hold their open air class adoption, which will occur on the evening of Monday, September 1, in the Painted Desert, located in San Diego's Balboa Park.

A number of Red Men of this city plan to attend the ceremonies, as will many chiefs and members of practically every branch of the order in Southern California. More than a hundred candidates are to be initiated into the order's three degrees, according to S. G. Johnson, chief of records of Osage tribe of Santa Ana.

The Painted Desert covers an area of five acres and contains a number of Pueblo communal houses and villages. These are exact, full-size reproductions of the most characteristic desert Indian pueblo in New Mexico and Arizona. They include the celebrated North Pueblo of Taos, N. M., where a score or more artists have studios; a compact row of adobe and plaster houses basked against a cliff containing cave dwellings, modeled on the best of the houses of Zuni, N. M.; four or five two and three-story Hopi and Supai houses from Arizona and New Mexico, and two circular, one-room Navajo hogans or huts. In all, there are probably 200 rooms in the various villages of this unique exhibit of early Indian architecture.

The Painted Desert is one of six exposition buildings now occupied by the San Diego museum. It was built by the Santa Fe railroad, under the supervision of Director L. Hewett of the museum, and of Jesse Nusbaum, noted archeologist.

During the exposition it was occupied by a post traders' store and groups of Indians brought from the desert, including Navajos, Hopis, Supais, Plutes and others who carried on their leaving and other industries and held their dramatic dance ceremonials.

Hair restored to its natural color by the latest process. Mrs. Cora B. Cavins, Frou Frou Shop, 116 E. Fourth St.

RIVERSIDE BOYS ARE TO RAISE FINE HOGS

RIVERSIDE, Aug. 22.—To stimulate interest among the juniors for entering their pigs in the approaching fair, W. R. Ralston, assistant state leader of boys' and girls' clubs, was in Riverside Wednesday and with R. E. Nebelung, assistant farm advisor, visited the boys of the West Riverside district, who have signified their intention of making entries.

Ralston found that the interest was unusually good in the project and in the West Riverside district found seven boys who are fattening up their pigs in readiness for the October fair. Each boy got his pig when it was eight weeks old and has been working out fine problems.

FIRST SEMESTER TO BE STARTED WEDNESDAY SEPT. 10

Strongest Faculty In History of Institution Will Conduct Studies

CALENDAR FOR HIGH SCHOOL NEXT TERM

Registration	September 4-8
Seniors (A to K, forenoon; L to Z, afternoon)	September 5

Sophomores (A to K, forenoon; L to Z, afternoon)	September 6
Freshmen (A to K, forenoon; L to Z, afternoon)	September 6
First Semester begins	Sept. 10
End of First Quarter	Nov. 7
Christmas Vacation	Dec. 12-29
First Semester ends	Jan. 23
Registration of New Students	Jan. 23
Second Semester begins	Jan. 26
Easter Vacation	Mar. 26 to Apr. 5
End of Third Quarter	March 26
Second Semester ends	June 4
Commencement	June 4

With a personnel of 48 instructors, twelve of them newly employed by the board of education, the Santa Ana high school, which will open its first semester of the 1919-1920 season on September 10, will have what will prove to be perhaps the strongest faculty in the history of the institution.

The list of teachers, made public today by Principal D. K. Hammond, contains many names familiar to high school students in past years. Following is a brief synopsis of the educational records of each of the twelve teachers who are newcomers on the faculty:

Irene Ahern, who will have charge of the home economics department, is a graduate of Oregon Agricultural college, where she also spent a year doing graduate work in chemistry and home economics, completing the requirements for a master's degree. When the war broke out Miss Ahern entered the Letterman hospital at the Presidio in San Francisco as dietitian.

Herbert N. Alleman, who will head the mechanic arts department, is a graduate of the New Mexico State college and has taught during the past two years in Oxnard. For several years he was engaged in machine shop work in Mexico.

Irene L. Brooks, who will teach Spanish, is a graduate of Stanford, with a master's degree. She took the

Engineer Plans to Divert Lake Contents By Big Tunnel Scheme

(Continued from Page Nine)

first two years of her college course at Pomona. During the past year she taught in the Warren school at Menlo Park, Cal.

J. Russell Euff, teacher of biological sciences in the high school and Junior college, is a graduate of Whittier college. During the first year he has been laboratory assistant at the University of California.

F. S. Emery, who will teach forge, machine and auto shop work, is a graduate of the San Diego and Santa Barbara Normal schools. Last year he had charge of the Smith-Hughes work in the Santa Barbara schools. While in the service Mr. Emery earned his lieutenant's being mechanic in an aero squadron.

E. C. Ficken will handle the wood shop work and assist in athletics. Mr. Ficken is a graduate in engineering of Grinnell college and has had teaching and coaching experience at Huntington Beach, Brawley and Fullerton.

Lieutena C. Greenfield, who will be the new librarian, is a graduate of Stanford with a master's degree in English and also a graduate of the Los Angeles Library Training school. She has had five years' experience in teaching at Corning and Napa, Cal.

Adelaide Hart will teach French. Miss Hart is a graduate of Barnard college, Columbia University and has taken graduate work at the Sorbonne, University of Paris, France, and at the Carnegie Institute at Cold Spring Harbor. She has done four years of private teaching in Paris and three years in the Salt Lake City high school. During the war Miss Hart translated all the secret technical aircraft data received at Washington from France.

Louise Lauritzen, who will have charge of art instruction, is a graduate of the University of California and the California Art school. She has been instructing in the Fresno Normal school during the past year.

Marvin Morrison, who will be head coach and who will assist in the commercial department, is a graduate of the Santa Ana high school and Pomona college and has just completed a special course in physical education at the University of California, where he learned the fine points of Eastern football under "Andy" Smith.

E. J. Shives will head the history department and have charge of debating. Mr. Shives is a graduate of the University of Worcester and has done graduate work at Harvard and California. For the past five years he has been principal of the high school at Oceanside.

Anna L. Trythall, who will teach Latin, is a graduate of the University of Southern California and has a master's degree in Latin from the same institution. She has taught two years in Clovis and two years at Downey.

Following is a complete list of the high school faculty for 1919-1920:

D. K. Hammond, principal.
W. M. Clayton, vice principal, head of mathematics department.
Lulu B. Finley, registrar.
Irene Ahern, head of home economics department; home economics.
H. N. Alleman, head of mechanical arts department; mechanical drawing.
Josephine Arnoldy, Latin.
Elsie A. Bell, English.
Irene L. Brooks, Spanish.
J. Russell Bruff, biology, botany.
F. L. Carrier, head of science department; commandant; physics.
Elta May Conkle, general science.
Meta Daniel, general science.
F. S. Emery, forge, machine shop.
E. C. Ficken, wood shop.
Margaret C. Gallup, Spanish.
Osborn Garber, bookkeeping.
Joella Gowdy, history, mathematics.
Lieutena C. Greenfield, librarian.
Elsie Gulley, history.
Clarence Guslin, head of music department; music.
Adelaide Hart, French.
M. Birdenia Henry, head of physical education department; physical education, oral expression.
She Warren Holland, mathematics.
Eva E. Johnston, English.
T. B. Kelly, chemistry.
Margaret Lacy, commercial.
Frances L. Lapum, shorthand, typing.
Fannie Lasby, mathematics.
Louise Lauritzen, head of art department; art.
Alice Leech, sewing.
Marvin Morrison, commercial, athletics.
Pearl E. Morse, commercial.
E. M. Nealley, social sciences.
Eleanor H. Northcross, English.
Verna Peterson, English.
Ernest Crozier Phillips, oral expression, dramatics.
E. Kate Rea, history.
Nell Marie Remsburg, English.
Ruth Rowland, home economics.
Edith Scott, girls' physical education.
Olive Stewart, history, civics.
Mary Swass, Spanish.
E. J. Shives, head of history department; history, English.
Anna L. Trythall, Latin.
Lella Watson, head of language department; French.
Iva M. Webber, intermediate commercial.
Mabel G. Whiting, mathematics.
M. Elizabeth Wyant, head of English department; English.

(Continued from Page Nine)

ply is limited and would not justify the expense necessary to convey it to Orange county lands. The lake lowers about twelve feet every year by evaporation and seepage and is filled up only once in about every twenty years, when extra big freshets come down the San Jacinto.

"Lammy's plans would empty the lake in about three months, in my opinion, and the amount of water that finds its way into the lake during the winter months is not of sufficient quantity to hold out any very great inducement for making the lake a dependable source for irrigation water.

"Lammy estimates the cost of the enterprise at \$1,500,000. We have had engineers go over the ground since his application was filed and they estimate the expense at about \$6,000,000. Some considerable difference.

"Elsinore is now picking up and there are many projects on the tapis. We will need the lake to help us in our forward movement for there is no doubt but that it is a good drawing card for the city and offers a feature of entertainment to people who come here for rest or to regain impaired health.

"No, we are not going to let Lammy get his permit through default, for we will be represented at the hearing and we believe we can present the character of evidence that will cause the commission readily to deny the request."

Among the big projects on at Elsinore at this time is the razing of the Amsbury Hotel (the old Bundy Hotel) and the erection of a new and modern structure. O. W. Amsbury, the proprietor, now has plans drawn and specifications are being prepared for the new hotel, which will cost between \$45,000 and \$50,000.

It will be constructed of cement, with every modern convenience known to hotel architecture, with special attention being given to bath room features. The tubs for hot mineral baths will be of tile, with the number of rooms and other facilities greatly increased over what they are at the present time. Amsbury expects to have the work under way within the next month or six weeks.

Inquiry at the office of the Irvine company made from the Register office, concerning Lammy's application, brought this answer: "We know nothing about the matter at all."

Shame Assert Brothers Who Are Fined \$10 By Justice For Fighting

HOLTVILLE, Calif., Aug. 22.—"A. H. Dickey and J. B. Dickey to the bar," said Justice of the Peace McDonald. "Related," replied one of the two. "You're charged with fighting on the public streets."

"Guilty."

"Ten dollars."

"Lend me your check book," said A. H., and J. B. handed it to him. After paying the judge with separate checks, they walked out, arm in arm.

"Damshame we can't do as we please," said A. H.

"Yep, damshame," J. B. confirmed.

MOCCASINS POPULAR

JUNEAU, Alaska, Aug. 22.—Alaska Indian-made moccasins are becoming popular in the effete East. A dozen sample pairs sent to a dealer in Newark, New Jersey, caused an order to be hurriedly placed for 2,000 pairs.

Generally speaking, an after-the-war garden looks as if it had been through one.

Cuticura Soap and Ointment for Skin Troubles

THE MILK IS ALREADY IN THE FLOUR

AUNT JEMIMA PANCAKE FLOUR

"I'm in town, Honey!"

The economical way to make pancakes

Everything to make good pancakes is already mixed in Aunt Jemima Pancake Flour—even the sweet milk!

Every housewife knows how necessary milk is for really good pancakes. But milk is expensive these days—and it often happens that you are out of it at the last minute when you want to make pancakes. That is why the Aunt Jemima people mix milk, in powdered form, in their pancake flour.

There's nothing for you to do but add water, and beat well—in no time at all the tender pancakes are done. There's no chance of failure—you can count on your cakes being always light, always tender—always "the best you ever tasted." So rich-flavored, so hunger-satisfying that you'd never dream they could be made so inexpensively! Ask your grocer for a package of Aunt Jemima Pancake Flour today. Use it for delicious muffins, too!

CAPTURED ENEMY CANNON BRINGS DOWN BALLOON

Santa Ana Gunner Tells How
German Gun Was Turned
On the Foe

How American artillerymen found an abandoned German field piece and turned it on the precipitately retreating enemy, bringing down one of their observation balloons, is being told today by Ivan Penn, son of Mr. and Mrs. H. M. Penn, who live on the Garden Grove road.

The episode occurred in the height of the St. Mihiel offensive. Penn was with the 17th Field Artillery of the 2nd division. The American advance had been so rapid and so carefully planned that the enemy had no time to evacuate all its ordnance. Tremendous stocks of military stores of all kinds fell into the hands of the on-sweeping forces of General Pershing.

As Penn's battery made its way rapidly forward, seeking a vantage point for a new emplacement, a German cannon, corresponding in caliber to the French "75," was found where it had been left by the Germans in their hurried departure.

Find Supply of Ammunition
A supply of ammunition was found near the abandoned gun. Penn, who was with four other men, assisted in facing the gun about. It required but a little experimentation to show the Americans how the German field piece was operated, and in a short time they had set the cannon and were hurling shell after shell on the fleeing enemy.

A German observation balloon, seen floating in the air at some distance forward, became a target for the erstwhile German cannon. Several well-placed shots took effect and the balloon soon burst into flames and came to earth.

Penn was the only Santa Ana boy in the 17th Field Artillery regiment. He had been transferred to this organization at Camp Kearny.

Enlists in "Grizzlies"
Penn enlisted in the 14th Field Artillery in November, 1917. He was a member of Battery D, in which there were a number of Santa Ana men. On being transferred he was assigned to the Second Division, with which he served until his discharge.

Penn landed in France at the beginning of July, 1918. Following the signature of the armistice by Germany, he was with the Army of Occupation, his organization being stationed at Ehrenbreitstein, Germany. He left France less than a month ago.

In addition to the St. Mihiel offensive, Penn took part in the Meuse-Argonne campaign and was on the Champagne and Soissons fronts.

SANFORD SELLS GROVE NEAR MOTHER COLONY

ANAHEIM, Aug. 22.—Newman H. Sanford has sold his orange grove home recently purchased from H. J. Fay, to Rev. Chas. D. Lewis of Los Angeles and Edgar P. Williams of Pasadena. Williams, who is an expert orange grower, will move on the grove and take active charge of this and other citrus property they own in the same vicinity. Mr. and Mrs. Sanford expect to leave early in the fall for Minnesota where they will visit relatives and Mr. Sanford will assist in the harvest of crops on his farm there. Both the purchase of the property by Sanford and its sale to the new owners was made by Ross brothers of the Orange County Realty Company.

DUCKS BEING SHOT BY STATE RICE GROWERS

WILLOWS, Calif., Aug. 22.—Rice growers of this district are shooting ducks these days, game laws notwithstanding. Permission to shoot ducks endangering the rice crops was given members of the California Rice Growers' Association by the Biological Survey. Ducks killed under these permits cannot be sold, but surplus ducks can be sent to charitable institutions.

SUBSTITUTE FOR BITRO-PHOSPHATE LEADS TO 'ARREST

Pharmacist Sought to Make Fortune by Trading Upon Reputation of Well-Known Tonic. Strength, Tissue and Blood Builder—Imitation Did Not Contain Strength-Giving Properties of Genuine Product.

PHOENIX, ARIZ.—The arrest of a pharmacist of this city revealed a gigantic plot to violate the state and federal statutes by selling a cheap, inferior substance represented to be genuine bitro-phosphate.

The authorities found thousands of counterfeit labels and materials indicating elaborate plans for the nationwide exploitation of the spurious tonic. The case is unique in the criminal records of Arizona and serves as a warning to the public against worthless imitations designed to sell upon the reputation of high grade, efficacious preparations.

For many years Bitro-Phosphate has enjoyed the confidence of its millions of users and the fact that reputable physicians prescribe and recommend it in cases of nervousness, excessive thinness and general weakness makes it the natural target for the unscrupulous substitutor.

Fredrick Kelle, M. D., Editor of New York "Physicians Who's Who," says Bitro-Phosphate should be prescribed by every physician and used in every hospital to increase the strength and enrich the blood of weak, thin, nervous or anaemic people. The genuine bitro-phosphate is sold by all first class druggists under a definite guarantee of satisfaction or money back and cases of attempted substitution for the sale of an imitation should be reported to ARROW CHEMICAL CO., sole manufacturers, 21 Union Square, New York City.—Adv.

MUCH STUDY IS FEATURE, SAYS LIEUT. WEST

Local Man Finds College Life
In France Very Different
From Here

The College of France does not have a large and beautiful campus as does the ordinary college in this country.

Athletic and social life, do not have much part in educational institutions over there.

Students take college life much more seriously than do the Americans. Courses are similar to those in American colleges.

Classes are often held from early morning until seven and eight o'clock at night.

There are no dormitories in the majority of colleges. Students live about the town wherever they can.

Professors are often shifted from one college to another.

Socialism and Bolshevism thrive in colleges and students have big part in politics.

Young Frenchmen have disappeared almost entirely from college life and educational advantages for women are an innovation.

Since he attended Stanford university for four years, graduating there, and since he as a member of the A. E. F. attended a French university, Lieut. Bertrand West of Santa Ana is especially well equipped to make a comparison between college life in this country and college life in France.

Lieut. West has just returned from "over there," and a chat with him brings out many interesting facts concerning political and educational affairs in France.

The young lieutenant is an excellent talker and his experiences in Europe, while mixed with tragedy and sadness and a near approach to the valley of death, have been most valuable to him along the line of the great profession which he has selected for his life work, the law. He is a graduate of Santa Ana High School.

Lieut. West was in the aerial observation service while in the army. He tells of the wonderful part this department took in the winning of the war. He says that no one who has not been in the service to see the wonderful miracles performed by these soldiers of the air and the great and quick co-operation maintained between them and the land forces can realize what an important part the airman took in action. He says that if the United States finds it necessary to enter Mexico, the aeroplane would be the means of quick victory.

But this is not a war story. It will tell something about Lieut. West's course in the great university of Caen in Normandy, where he spent four months studying French law, following the signing of the armistice.

An Excellent Thing.

"The government did a great thing," said Lieut. West, "when it made arrangements to give the boys courses in the universities. It could not get us home, and there were thousands of us sitting around with nothing to do but get most terribly homesick. The students were divided among fourteen universities, approximately, as follows: University of Paris, 4189; Toulouse, 1085; Montpellier, 510; Grenoble, 400; Lyon, 380; Bordeaux, 260; Portiers, 240; Clermont-Ferrand, 230; Aix-Marseille, 205; Dijon, 180; Nancy, 150; Besancon, 140; Rennes, 121; Caen, 90.

Caen is the second oldest university in the world. It was founded in 1432, and is coeducational. When Lieut. West was there, there were ninety American students, including twenty officers. The courses are general, but the institution ranks first in engineering, and is also well up in law. The college was founded by the English in the time of Henry VI, who gave it its charter.

None of the colleges have large campuses, as is the rule in this country, and the buildings are very old and great store is set on the ancient statuary. The seats are narrow and most uncomfortable.

Caen is a city of about 80,000 inhabitants and the chateau at the university was the home of William the Conqueror. There are two wonderful abbeys, one called l'Abbaye aux Hommes and the other l'Abbaye aux Dames. They are memorials to the emperor and his wife. The cathedrals are marvelous, of a wonderful type of architecture, stern of aspect and with fine carving and sculpturing.

When asked whether it was his opinion that the Americans going to the French colleges got any real good from the short courses taken, West said that if they did not it was because of a lack of knowledge of French. He had had three years of the language in high school and at Stanford University, and had also acquired a fair speaking knowledge while in France. No English at all is spoken in the college.

The colleges, with perhaps the exception of the Paris University, have no dormitories and the students live about as they choose, many of them renting rooms and eating anywhere they happen to be.

The courses and methods of teaching are very similar to those in America, but the students take them more seriously than they do here. There are many lectures and frequent examinations, the latter coming as often as once a month.

A sad feature in the universities is the dearth of young Frenchmen. Unless they have been wounded or are sent by the government for some special training, there are none to be seen. There were about sixty English girls at Caen. In France the education of women is now being undertaken on a scale which makes it an innovation.

The young people of the French royalty attend private institutions, as a rule, says Lieut. West.

While social and athletic life is

Meats in Storage Not "Hoarded"

Live stock is a seasonal crop—like cereals and grains.

It is "ripe" and is marketed in larger quantities in certain months. This causes a natural oversupply at one time and a natural shortage at another.

During the time of oversupply Swift & Company places some of the meat in cold storage, against the season of short production.

This is a necessity in order that the nation's ration of meat—58,000,000 pounds every day in the year—may be forthcoming as the consumer requires it.

This is not hoarding, not price manipulation, not market control. It is mere common sense.

United States Bureau of Markets' figures of stocks of frozen and cured meats July 1 are being used as a basis for Department of Justice investigations in many cities. When properly analyzed, based on Swift & Company's stocks, these figures show:

62 per cent (approximate) is pork and beef cuts, etc., cured and in process of curing. It takes 30 to 90 days in pickle or salt to complete the curing process.

12 per cent is frozen pork, of which more than three-quarters is to be cured in the next few months.

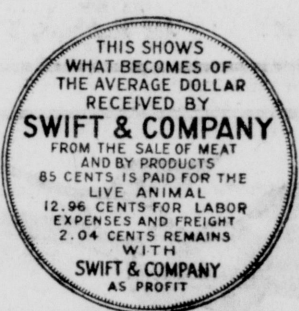

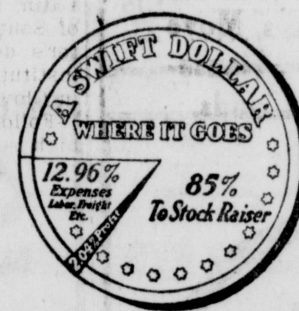

7 per cent is lard. This is a normal supply and only four-fifths of a pound per capita, and much of it will have to go to supply European needs.

19 per cent is frozen beef and lamb, and miscellaneous meats, part of which is owned by the Government and was intended chiefly for overseas shipment. If this were all diverted to domestic trade channels it would be only 2½ lbs. per capita—a 5 days' supply.

100%

From this it will be seen that "meats in storage" represent unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.

Swift & Company, U. S. A.

almost non-existent in French schools. American athletics are treated with the utmost enthusiasm and athletics among them is encouraged. At Caen the American boys organized a football team and visited many points. They also went out for track. They played Rugby football.

An amusing feature to the Americans was the courtesy shown to the faculty. The pupils were all obliged to stand whenever a professor entered the room.

As politics is a strong point in the education of young men and the students wield a great influence, Lieut. West took a course in politics, and one in the history of the war, which proved of great interest to him. Old world politics is very different from the United States kind.

Lieut. West says that Socialism and Bolshevism thrive in the colleges and no effort is made to stem them. At Caen the head of the engineering department was a Bolshevik.

Among the nationalities represented at the University of Caen were 100 Serbians. Lieut. West thinks the mixture of the various races was of great good and the Americans certainly changed their ideas about the French in many ways.

An impressive ceremony was held on Decoration Day at the American cemetery and was greatly appreciated by the boys. A general and his staff and other detachments of the French army were present and the difference in the uniforms, the French in their magnificence and the Americans, in their simplicity, was a noticeable feature.

The Americans were entertained a great deal socially in the homes, and especially were they well treated in the home of British Consul Backs, where they often went in the afternoon for tea and a social afternoon.

In speaking of life at Caen, Lieut. West says he will always remember the "crucifixion" it was to go into a barber shop, where the victim sat in an ordinary straight back chair. The markets are also a most amusing feature of French life, and in them one could buy anything from a chicken to a tiny screw. The Americans went there to listen to French plans for the future as yet, but he expects to spend another year in college in order to get another degree.

Healthy Mothers Healthy Babies

Every true mother realizes the fact that her baby's health depends upon her own, that the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induce general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when 7 months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONYHAN, Mitchell, Ind.

Good health during and after maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

B. McGrew died at Whittier Hospital
yesterday afternoon, after a short crit-
ical illness, the outcome of many
months of ill health. Mrs. McGrew
was the wife of Rev. Dr. Henry Edwin
McGrew, for 31 years pastor of the
Whittier Friends Church and for the
last year president of Penn College at
Oskaloosa, Iowa.SAN DIEGO, Aug. 22.—The naval
coastal reconnaissance dirigible which
is to be used at the North Island Na-
val Air Station, is now on the way
from Montauk, N. J. By the end of
the present month it is expected
the huge blimp will be in operation.
The balloon is 250 feet in length and
will carry a crew of five men.CALEXICO, Aug. 22.—The board of
trustees, completing its task as a
board of equalization this week, indi-
cated that the tax rate for this city
for the coming year would be \$1.35, as
compared to \$1.60 for last year. The
decrease is made possible by a reduc-
tion in the budget and an increase in
the assessed valuations—the increase

over last year being nearly \$500,000.

LOS ANGELES, Aug. 22.—Unani-
mous action for the establishment of
a parochial high school under Seventh
Day Adventist direction in Los An-
geles, and the granting of credentials
and licenses to laborers, were among
the important items of business trans-
acted by the Southern California con-
ference of this denomination in annual
session at the campground at Western
and Melrose avenues, Hollywood, yes-
terday.Why bother to try the packers if
they are to be let off with a fine that
may be collected from the pockets of
the public?

LAST RITES FOR H. E. MORRISON IMPRESSIVE

Well Known Printer Is Laid to Rest After Service at Local Chapel

By the side of a gray casket at Smith & Tuttle's chapel yesterday afternoon, stood a pillow, intricately and beautifully fashioned of delicate blossoms and in the center were the figures "30" done in lavender.

This, in the parlance of the printer, means "the last" and showed that the life page of Harold E. Morrison was finished. The book was closed suddenly Wednesday morning at five-thirty after Mr. Morrison had worked late at his place of business the night before.

The decedent was a man, giant in stature, with a heart in proportion to his body, a character gentle and tender as a woman's, full of innate refinement and honesty. Wherever he went, although quiet and unassuming, he made life-time friends. In simple words, he was a gentleman.

The services yesterday were in keeping with the life for which "30" here on earth has been signed, simple and impressive. Rev. P. G. Davies of the First Baptist church officiating and speaking words of comfort and consolation to the widow, who is left alone to battle with the world. There are no relatives here.

Mrs. Russell Coleman beautifully sang the sweetly comforting hymns, "Some Time We'll Understand" and "Under His Wings," with organ accompaniment by Miss Sarah Gardner.

There were many beautiful floral emblems, including the pillow from the Typographical Union of this city, of which the decedent was a member four years ago faithfully serving a term as president of the local organization. The pallbearers were members of the union and were J. F. Miller, J. W. Fullerton, Orville S. Waters, Guy Holmes, W. H. Sutton and C. R. Wheeler. Interment was made in beautiful Fairhaven cemetery.

Mr. Morrison was a native of New York and had lived here seven years. He was 51 years of age. During his residence here, he was employed on the Blade and Register and at the time of his death was a partner of Frank Eastman in the job printing business.

"O, what a glory doth this world put on, For him who with a fervent heart goes forth, Under the bright and glorious sky, and looks On duties well performed and days well spent."

—Longfellow.

U. S. SHIPS HELPING VIRGIN ISLANDERS

SAN JUAN, P. R., Aug. 22.—The United States Shipping Board is bringing prosperity to the Virgin Islands, according to C. Corneiro, a member of the Harbor Board at St. Thomas, who is visiting here.

The shipping board is sending its vessels in the West Indies trade to Charlotte Amelia for coal and oil fuel, and already an average of one ship a day is making the port. It is expected this number will be increased to five. The shipmasters have also renewed the old custom of picking up stevedores there for work around the islands, thus giving work to men who have long been idle.

According to Corneiro, much of the credit for interesting the shipping board in the new consular possessions goes to Collector of Customs Curry at St. Thomas, who went to Washington and urged the matter with Chairman Hurley himself.

The revival of the shipping has stirred other lines and there is more prosperity on the islands now than since the purchase.

FACULTY OF ANAHEIM SCHOOLS ANNOUNCED

ANAHEIM, Aug. 22.—Everything is in readiness for the opening of the grammar schools which will be on September 15, the same date on which the high school opens. Following is a list of teachers that have been engaged for the year:

Freemont School

Kindergarten—Margaret Shive and Helen Roberts.
Music—Nina M. Owen.
Domestic Science—Elizabeth Renshaw.

Drawing—Sada House.
Manual Training—Claude Horst.
Central School
Mattie Lou Robertson, principal.
Bernice G. Cole, Mackey West, Vincenta Doyle, Erma Steadman, Louise Norton.

Broadway
M. Alice Grimshaw, principal.
Elenora A. Parker, Lula B. Garrison, Edith Hedstrom, Blanche Graves Daniels, Mrs. J. T. Burgess, Ruth Munger, Amy C. Bigelow.

CANADIANS WILL HOLD BIG PICNIC TOMORROW

All Canadians are invited to attend the annual reunion and picnic to be held in Sycamore Canyon Grove, Los Angeles, tomorrow under the auspices of the Canadian Maple Leaf Club. Provincial registers will be open at 10 a. m. and a basket dinner will be served at noon. The program at 2 p. m. includes: Selections by the L'Estrange orchestra; short talks by the Rev. Luther L. Cross and David T. Gilmore, vocal solos by Margaret Tait, Barquis Ellis and Glyn Isaac; violin solo, Miss Genevieve L'Estrange; cello and banjo solos, Mrs. Charles Murchison; guitar solo, Miss Frankel; violin solo, Miss Kitchen. There will be games and races with prizes to the winners.

CINEMA REVELATION OF TURK ATROCITIES SHOWN AT TEMPLE THEATRE STARTING TODAY

Tied to horses at night to prevent escape. Scene from "Auction of Souls"

Today marks the opening of the season's most sensational screen drama, "The Auction of Souls," at the Temple theater. The picture will run for four days only. It is the actual story without exaggeration of pretty Aurora Mardiganian, the sole survivor of one million Armenian girls who were sold into slavery by the Turks. The facts are substantiated by the official reports of the British investigator, Viscount Bryce and American Morgenthau. Mere words can never describe what ravished Armenia suffered during the Turk invasion, but the picture tells in graphic detail everything that took place. The management requests that parents do not send their children, as those under 16 years of age will not be admitted.

JOHNSON FAVORITE ON ARMY TRANSPORT

WASHINGTON, Aug. 22.—The Antigonian, published on board the U.S.S. Antigon, one of the large government transports, contains in its current issue the following summary of a straw ballot on presidential candidates taken at sea among the returning troops July 29:

Republican—Hiram Johnson, 648; Major General Leonard Wood, 319; General John J. Pershing, 230; Henry Cabot Lodge, 48.

Democratic—Woodrow Wilson, 336; Crampton Clark, 84; W. G. McAdoo, 74; Newton D. Baker, 46.

Labor—Samuel Gompers, 62.

Prohibition—William Jennings Bryan, 24.

Socialist—Eugene V. Debs, 16.

The troop organizations which returned on the Antigon were the 816th Pioneer Infantry, organized at Camp Funston, Kansas; the 4th Ammunition Train, organized at Camp Green, North Carolina; Graves' Registration Unit 304, Quartermaster Corps, organized at Fort Jay, New York; Motor Transport Company 457, organized at Camp Johnston, Florida; Motor Transport Company 477, Camp Johnston, Florida, and a number of casualties from all parts of the country. Nearly every state in the Union was said to have been represented in the balloting. Republican candidates polled 1245 votes against 590 for the Democrats. Senator Hiram Johnson, the leading Republican candidate, polled more votes than all the Democrats combined.

Newport Hotel, on ocean front.

GARDEN GROVE BRIEFS

GARDEN GROVE, Aug. 21.—Mr. and Mrs. R. C. Hammett and little daughter and Miss Isabel Northcross went to Laguna Thursday for an outing. Mr. Hammett returned Monday morning to work at the Junkin garage, which he recently purchased and will go to Laguna the latter part of the week to bring the rest of the party home.

Mr. and Mrs. Lewis Monroe and two sons, Walter and Arthur, arrived Tuesday from Bishop, to take possession of the Sanders property on South Euclid, joining the Mrs. M. J. Brown property which they recently purchased.

Mr. and Mrs. William Schnitzer and sons returned Saturday from an enjoyable week at Little Bear.

H. A. Lake and family and guests, Mrs. Anos Swanwick and daughter, motored to Little Bear Lake Saturday, returning Sunday via Big Bear Lake.

Mr. and Mrs. E. A. Pearson and little daughter left Monday for two weeks' outing in the vicinity of Bishop.

Mr. and Mrs. F. A. Monroe returned Thursday from Little Bear Valley, where they expected to spend two weeks. The heat from the forest fires hastened their return. Mr. Monroe joined the fire fighters. Mr. and Mrs. Monroe and the former's mother left Monday for a week of the cooling breezes at Laguna.

Dr. C. C. Violett, J. M. Woodworth and W. C. Goodwin attended the Masonic banquet at Santa Ana Wednesday evening.

Mrs. A. W. Keith and children of San Diego, are visiting Mrs. Keith's parents, Mr. and Mrs. George Head. Miss Mabel Northcross enjoyed

BIG NEW MOTOR AMBULANCE IS RECEIVED

E. N. Winbiger to Have Charge of Service For Sick and Injured

A fine, new motor ambulance has been delivered to Mills & Winbiger, and was put into operation yesterday by Ernest N. Winbiger, who is to have charge of it. The ambulance was made in the East under an order given by Mills & Winbiger last February. The engine is a Velle four-speed engine, made for ambulance service.

No one has any question but that Santa Ana has long needed a modern ambulance service. For a long time there has been no ambulance in the city, and oftentimes there has been difficulty in getting accommodations for the moving of sick and injured persons.

The new machine is of the very best type, with two portable cots, heat, electric lights, an electric fan, a first-aid closet, faucet and basin medicine chest, sanitary drinking cups, built-in compartments for towels and sponges, extra seats for attendants, a thermometer and other equipment that goes with the most modern ambulance.

The ambulance is subject to call any hour of the day or night. Ernest N. Winbiger, who is to have charge of the ambulance, has had special training in ambulance and first-aid service.

TWO JAIL BREAKERS CAPTURED BY GIRL

SIoux FALLS, S. D., Aug. 22.—The heroine of South Dakota is Miss Alice Schair, daughter of Sheriff Schair of Brule county, in the Missouri River section of the state. Two men who had been raiding country homes in Brule county escaped from jail and it was several hours before their absence was discovered. Some time later a report came by telephone to the jail that two men answering the description of the fugitives had been seen in a direction, different from that taken by the searching parties.

Miss Schair armed herself with an automatic revolver, commandeered an automobile and its driver, and drove to the place, some miles from Chamberlain, the county seat. The fugitives were reported to be hiding in a patch of weeds. Standing on the running board of the automobile, Miss Schair caused the machine to be run alongside the weed patch. She fired a couple of shots into the air to make sure her weapon was in working order, and also to warn the fugitives that she meant business.

Presently the fugitives arose from their place of concealment in the weeds and threw up their hands and surrendered. They were placed in the automobile and taken back to the jail by Miss Schair. In court they pleaded guilty and are now in the Sioux Falls penitentiary.

Miss Schair is a school teacher at Lake Crystal, Minn., and was spending her vacation at home.

SEARCHING FOR WIFE, HE IS GIVEN 30 DAYS

LOS ANGELES, Aug. 22.—Harry Brooks' search for a helpmate is postponed for thirty days.

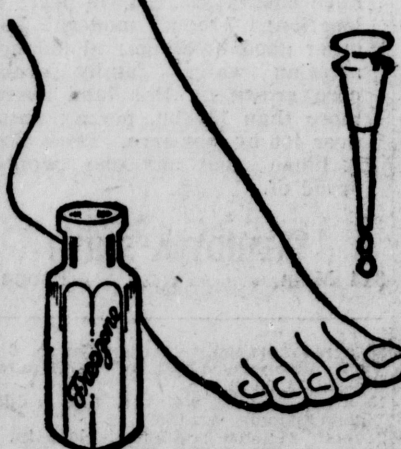

After failing to obtain a passport into Mexico "for the purpose of getting a wife," Brooks sought to insert an advertisement in the newspapers here. The newspapers refused to publish his matrimonial plea.

He got around that by advertising for a "housekeeper and chambermaid," which brought him into a clash with federal Judge Bledsoe. The ad was answered and the answer was followed by a proposal of marriage to the applicant, even if she had "incumbrances" in the form of children. The applicant gave the letter to postal authorities and Judge Bledsoe gave Brooks thirty days.

"I suppose you expect the historians to do you justice," "My friend," said the senator, "if I get sufficiently prominent to figure permanently in print, I'm not going to take my chances with any historian; I'm going to have a press agent."

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

NEW YORK, Aug. 22.—Two well-developed pennant hunches lay buried today—both nurtured in New York.

The Yankees slipped helplessly into the second division of the American League, despite the ingenuity of Miller Huggins and the purchase by Colonels Ruppert and Huston of an alleged all-star pitching staff. They are apparently out of the race.

The Giants lost a game to the Cubs while the Reds were racing the Dodgers for a double victory, thereby drawing out another full game in the van of the National League. Ordinary baseball luck will now bring the pennant home for the Reds.

At the start of the season a baseball fan would have put up almost any argument for the Giants' chances and there were many who believed the Yanks would win with a hard fight.

The veteran infield of the Giants has cracked and the veteran pitching staff of the Yanks has split with a resounding bang. The outfield of the American League club also has exploded in a vain effort to do something. Huggins, in fact, is searching the pastures for a good, or even a fair outfielder, overlooking the fact that he traded Bill Lamar to the Red Sox and sent Frank Kane to the minors.

NEW YORK, Aug. 22.—Broadway favorites have taken offense at the intimation of French press agents that the "most beautiful legs of France," which are visiting here, will out-luster the limbs grown in America.

The honor of America just must be upheld—and legs are appropriate for such a task.

Ann Pennington, New York actress who is said to possess dimpled knees, says she is willing to enter into competition with Mlle. Dites Minto, the Parisian dancer who brings the beautiful legs.

Pearl Zaton, another favorite, holds herself in readiness to vie with Ann in upholding America's prestige.

TORRENS SYSTEM HIT BY COURT DECISION

(From the Riverside Enterprise)

The Torrens system doesn't appear to be applicable in a successful and safe manner to the title business in California. It would appear to be a vital thing for property owners to know beyond a possibility of a doubt that their titles are good and that they really have a right to the property they claim as their own.

A case which is likely to develop into one of national interest may result from a decision rendered by Judge Lewis R. Works, of Los Angeles county. The case in question involves the legality of the Torrens Law, and if the decision is upheld by the higher court it will have the effect of annulling the Torrens Law of this state.

The case decided was one brought against the Pacific Light & Power company, and arose out of the following circumstances: The power company purchased a right-of-way for its power lines across land owned by Charles Bogart. After the power company had recorded the deed and gone into possession of the land, erecting its poles and stringing its wires, Mr. Bogart placed his property under the Torrens Law. He failed to mention the interest of the power company, and the Torrens certificate of title issued to him made no reference to the interest of the Pacific Light & Power company—this notwithstanding the fact that the power company was in possession of the land and held a recorded deed for its right-of-way.

After registering the property, Mr. Bogart sold it for its full market value. The purchaser examined the Torrens certificate of title, which showed that Mr. Bogart owned the property, free from all claims of every nature. After purchasing the property, the interest of the power company was discovered, and when the power company refused to remove its poles and wires, an action was brought to evict it from the premises. It was admitted at the trial that the plaintiff was an innocent purchaser, and had relied entirely upon the Torrens certificate. Nevertheless, the court held that the plaintiff could not recover.

AUCTION!

NINETEEN HOLSTEIN DAIRY COWS

GOVERNORS CONSIDER AFTER WAR PROBLEMS

SALT LAKE CITY, Utah, Aug. 22.

After the war problems, including a long discussion of the various state measures and projects for aiding returned soldiers, sailors and marines through bonus payments, preference in civil service employment, soldier farm plans, etc., occupied the governors of the various state this forenoon at their round table session. A resume of remedial legislation passed by the last legislative assemblies and results to date, and views on educational, labor and views on agricultural questions were also given.

Mayor Ferry and city officials tendered a luncheon to the governors. Late today the visitors journeyed to Ogden. They were the dinner guests there of Mayor T. S. Browning.

Man Wanted, Graham Furniture Co. Advertisement.

Almost a Shadow, Afraid to Eat

"My son-in-law was so bad from stomach trouble that he was reduced to almost a shadow and was afraid to eat anything, as all food caused bloating of gas which pressed against his heart, worrying him very much. Our druggist persuaded him to try May's Wonderful Remedy and in two months he looked fine, can eat anything and works hard every day." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At druggists everywhere.
